CARILLONS,
CLOCKS.**

RURAL RINGING ASSOCIATIONS.

The difficulties of organisation which have to be met by those responsible for running ringing associations which cover scattered country districts, with little or no means of railway communication, can be fully appreciated only by those who have had to do the work. From the campanological point of view, these areas are, and from the nature of the conditions must inevitably be, the most backward, so that the obstacles to progress are increased by a greater ratio than the difficulties to be met with in more compact and better favoured districts. The very isolation of the towers is a reason not only for lack of progress, but for actual retrogression, for bands, even if they have once mastered the rudiments of change ringing, soon slip back to the 'stony' stage—unless they possess exceptional talent and enthusiasm—if they do not receive inspiration and encouragement from contact with other ringers. Even where the art does get a precarious hold, the task of an association is an extraordinarily difficult one if it seeks, as it should do, to extend a helping hand to its branches. It is not always the question of distance which proves the handicap; it is the inaccessibility from the absence of railway communication which is the chief drawback.

At the moment the Salisbury Diocesan Guild is endeavouring to solve a problem of this kind. Covering as it does nearly the whole of the two counties of Wilts and Dorset, which are largely rural, and are intersected by few railways, the Guild has always had an uphill struggle, and change ringing in this big area would have been in a bad way had it not been for the patience and perseverance of a handful of stalwarts, who have kept the flag flying in a few centres and carried the good work into the towers around. The Wimborne District, which takes in a big piece of Dorset, has been considering whether the cause of ringing will not be better advanced by splitting the area and forming a new branch for the northern portion. The working of the existing wide district has been a formidable task, and the scheme for the division is to go ahead in order to reduce the unwieldy dimensions of the Branch. Whether the proposal will have the result of improving the position of affairs in North Dorset remains, however, to be seen, for it was pointed out that the area in which the new Branch is to be established will have only two places on a railway line, and no tower with a ringable peal of eight bells. This is not much of a prospect for a newly-formed Branch. It will need an organising genius and officers of more than average enthusiasm to make a success of a district of this kind. We only hope they will be forthcoming.

BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL.

Orders may be placed now for delivery at a future date to suit the convenience of clients.

ALL MATERIALS CHEMICALLY AND MECHANICALLY TESTED.

Catalogue and Book of Testimonials post free on application

GEORGE A. COOKE 3	WILLIAM E. BASON ... 7
EDWARD C. COOKE 4	ROBERT W. COOKE Tenor

Composed and Conducted by WILLIAM E. BASON.

The peal is composed of 60 courses with 178 Singles and No. Bobs: 4, 5 and 6 each 20 course ends in 6th's place, with all combinations of 4, 5, 6 in 5-6, and was rung for the first time.

Specially arranged as a farewell peal to Mr. E. C. Cooke, who was leaving next day to reside in London.

OSWALDTWISTLE, LANCASHIRE.

THE LANCASHIRE ASSOCIATION.

(BLACKBURN BRANCH.)

On Monday, December 17, 1923, in Three Hours,

AT THE PARISH CHURCH,

A PEAL OF PALATINE SURPRISE MAJOR, 5184 CHANGES;

Tenor 11½ cwt.

JOHN WATSON Treble	FRANK SHAW 5
MRS. J. WHEWELL 2	JONATHAN WHEWELL ... 6
MISS ELLEN SHAW 3	JAMES HOULDSWORTH ... 7
JAMES SHAW 4	WILLIAM RILEY Tenor

Composed by A. KNIGHTS. Conducted by J. HOULDSWORTH.

The method is now rung for the first time, and the peal was rung at first attempt on the eve of the treble ringer's birthday. The method has been named by the Oswaldtwistle company.

CONISBOROUGH, YORKS.

THE DONCASTER AND DISTRICT ASSOCIATION.

On Tuesday, December 18, 1923, in Two Hours and Fifty-Nine Minutes,

AT THE CHURCH OF ST. PETER,

A PEAL OF BOB MAJOR, 5024 CHANGES;

Tenor 13½ cwt.

*J. RANDS Treble	O. GREATHHEAD 5
*C. URCH 2	P. GLEDSTON 6
H. FOWLER 3	†R. SAREBY 7
M. FOWLER 4	*E. STACEY Tenor

Composed by GEORGE H. CROSS. Conducted by E. STACEY.

* First peal. † First peal of Bob Major.

WILLESDEN, MIDDLESEX.

THE MIDDLESEX COUNTY ASSOCIATION AND LONDON DIOCESAN GUILD.

On Tuesday, December 18, 1923, in Two Hours and Forty-Two Minutes,

AT THE CHURCH OF ST. MARY,

A PEAL OF ST. CLEMENT'S BOB MAJOR, 5008 CHANGES;

Tenor 10 cwt.

EDWARD LANCASTER Treble	CECIL V. EBBERSON 5
J. ARMIGER TROLLOPE ... 2	E. MAURICE ATKINS ... 6
GEORGE M. KILBY 3	THOMAS NEWMAN 7
CHARLES T. COLES 4	HARRY KILBY Tenor

Composed and Conducted by J. ARMIGER TROLLOPE.

First peal in the method by the Association in the county, and by all the band.

ERITH, KENT.

THE KENT COUNTY ASSOCIATION.

On Wednesday, December 19, 1923, in Two Hours and Fifty-Nine Minutes,

AT CHRIST CHURCH,

A PEAL OF GRANDSIRE TRIPLES, 5040 CHANGES;

HOLT'S TEN-PART. Tenor 17½ cwt.

*ALBERT E. AMOS Treble	FREDERICK A. COLEY ... 5
ISAAC G. SHADE 2	HERBERT E. ADSLEY ... 6
EDWIN BARNETT, JUN. ... 3	EDWIN BARNETT, SEN. ... 7
ALFRED G. HILL 4	*FREDERICK JOHNSON ... Tenor

Conducted by E. BARNETT, SEN.

* First peal. First peal on the bells since the tenor was rehung in ball bearings by Mears & Stainbank.

FIVE AND SIX BELL PEALS.

DROITWICH, WORCESTERSHIRE.

THE WORCESTERSHIRE AND DISTRICTS ASSOCIATION.

(WESTERN BRANCH.)

On Saturday, November 10, 1923, in Three Hours and Ten Minutes,

AT THE CHURCH OF ST. ANDREW,

A PEAL OF GRANDSIRE DOUBLES, 5040 CHANGES;

CHARLES LAYTON 3	GEORGE JORDON Tenor

Conducted by E. W. TURNER.

* First peal. Rung as a birthday compliment to the ringer of the tenor.

HANDBELL PEAL.

BURY ST. EDMUNDS, SUFFOLK.
THE SUFFOLK GUILD.

On Wednesday, December 5, 1923, in Two Hours and Twenty Minutes,

AT THE RESIDENCE OF MR. H. R. MOORE.

A PEAL OF BOB MAJOR, 5040 CHANGES;

*PRESTON EVERETT ... 1—2 | FRANK J. LEVITT ... 5—6
HARRY R. MOORE ... 3—4 | ARTHUR E. MOORE ... 7—8

Composed by J. CARTER. Conducted by A. E. MOORE.

Umpire: H. DOBL.

* First peal away from tenors.

THE FIRST PEAL OF KENT MAXIMUS.

INTERESTING FIND AMONG LUMBER.

An unusual record of a peal, the first peal of Kent Treble Bob Maximus ever rung, has come to light in Birmingham in a curious way. The peal is recorded on a tablet in the belfry, but the following account of it was evidently printed for private circulation. The copy, which has come into the hands of Mr. Tom Russam, is mounted on wood, and is brown with age.

A SUPERLATIVE ACHIEVEMENT IN THE ART OF RINGING.
Birmingham, April 17th, 1820.

The Society of St. Martin's Youths having for some time contemplated a Peal of Changes on 12 Bells, which should exceed in number any peal ever rung in the United Kingdom, appointed Monday, the 17th inst., for the attempt; and although there were very high odds (say 100 to 1) against any band ringing a 'plain' peal at the first onset, yet by an anxious attention to, and a superior possession of, this great science, they succeeded in completing the Herculean task in 5 hours and 8 minutes. The peal comprised 7,200 changes of new Treble Bob Maximus; and what eminently combines to enrich this performance is that it was rung at the first attempt, was the first peal of new Treble Bob Maximus ever performed, and the greatest number of changes ever rung on 12 bells.

Another generation may rise up to eclipse this, but the present will in all probability suffer it to remain a 'standing dish untouched.'

The band as stationed.

Mr. Wm. Bennett	Treble	The Peal.
James Jarvis	Second	52364
Wm. Hassall	Third	24365
Thomas Worrall	Fourth	23645
Alex Sanders	Fifth	32546
Henry Cooper	Sixth	45236
Samuel Lawrence	Seventh	34562
Joseph Grayson	Eighth	42563
Joseph Riley	Ninth	54326
Thomas Chapman	Tenth	23456
William Marsh	Eleventh Leads	150
Thos. Thurstans	Tenor & Conductor	48

7200

Note.—Mr. James Doversy, of Stourbridge, and many other Auditors, expressed their high approbation of the above performance.

The first considerable peal of Treble Bob Maximus, and which created much emulation in the Exercise, was performed at Norwich, by St. Peter's Company, in the year 1778, comprising 6,240 changes. The next by the College Youths, London, in the year 1784, being 7,008 changes; 18 years afterwards, viz., in 1802, the Cumberland Youths rung two leads more than the preceding peal, making theirs 7,104 changes; 18 years subsequently to this, viz., in 1820, the St. Martin's Youths, Birmingham, exceeded this latter peal by two leads, making their peal 7,200 changes.

The record which has now come to light thus gives the history of record peals of Treble Twelve and is, if only in that respect, unique among old documents. The manner in which it came into the hands of Mr. Russam is also rather remarkable. The mother of a friend, in turning out a collection of lumber that had accumulated through long residence in one house, found this ancient 'peal board' among the rubbish, and thence it passed through the hands of the friend to Mr. Russam. Enquiry elicited the fact that the original finder was the granddaughter of Alex Sanders, the ringer of the fifth in the peal. Alex Sanders, according to the peal book of the St. Martin's Youths, apparently rang his first peal in 1809, and was evidently a ringer of some merit, for he was one of the band that went from Birmingham to Liverpool, and won the cup that has since disappeared. But that is another story.

Naturally the old record is of great interest to St. Martin's Guild, into whose possession, it is hoped, it may eventually come.

SOMETHING NEW IN STEDMAN COMPOSITION

The two following peals, by Mr. Joseph W. Parker, are, so far as is known, new in the plan of composition, and should be of interest to conductors.

5007 STEDMAN CATERS.

5005 STEDMAN CINQUES.

Monkseaton, Nov. 1st, 1923.

Conducted by T. T. Gofton.

STEDMAN CATERS.

The following are two peals of Stedman Caters by the late George Newson, which possess the quality of having only the 5th and 6th in 2nd's and behind the ninth. The blocks b. r. b. will be well understood by conductors.

5256	5222
231456	123456 (last of quick six).
352461	2, 4, 6, 8, 10, 11, 12, 16.
352164	b. r. b.
164253	3, 4, 8, 9, 10, 13, 14, 16.
164352	b. r. b.
231456	2, 4, 6, 7, 10, 13.
461253	2, 4, 6, 10, 12, 13, 16.
461352	b. r. b.
351264	3, 4, 7, 8, 9, 13, 14, 18s.
351462	b. r. b.
231456	3, 5s, 6, 8.

The first (reduced to 5040 by omission of three consecutive bobs at 16) was the peal rung at Bristol on Oct. 20th and the second (reduced to 5,006 in a similar way) was rung at Trowbridge on Oct. 27th both conducted by W. A. Cave.

It is interesting to note that Henry Johnson had peals on this plan

and here is one, a 5,256, composed in 1860:—

231456

463152 2, 3, 6, 10, 13, 16.

463251 a. r. a.

251364 3, 5, 7, 10, 14.

251463 a. r. a.

231456 2, 4, 7, 13, 15, 16.

This can be rung as a 5,265 by calling the last course 4, 10, 12, 14.

16, or it can of course, be reduced by omitting three consecutive calls at 16.

HEREFORD.—On Sunday, December 16th, for evening service, at All Saints' Church, 1,344 changes of Grandsire Triples, in 50 mins.: R. Trehearne 1, A. Gwynne 2, W. H. Williams (conductor) 3, G. Giblin 4, W. H. Symonds 5, C. Sparkes 6, H. E. Hurcombe 7, J. Husbands 8.

SALISBURY DIOCESAN GUILD. NEW BRANCH FOR NORTH DORSET.

There was a large gathering of members of the Wimborne Branch of the Salisbury Diocesan Guild at Wimborne on the occasion of the annual district meeting. The visitors enjoyed ringing during the afternoon on the bells at the Minster, and touches of Grandsire and Stedman Caters and Double Norwich were rung. The customary Guild service was held, at which the Vicar (the Rev. A. L. Keith) officiated, and gave an address.

An adjournment was next made to the Church House, where, following tea, the annual business was transacted, under the presidency of the Rev. H. L. Phillips (Rector of Poole).

The Vicar of Wimborne cordially welcomed the visitors, observing they might rest assured that they could always depend on a very hearty welcome whenever they came to Wimborne to ring, because he for one, as well as a great many others, had the highest appreciation of the art of bell ringing and the admirable service which the bell ringers did to the church (applause).

It was announced with regret that Major Hughes D'Aeth, who had been Master of the Guild, had left the neighbourhood, having gone to Worthing.

DEPARTURE OF THE GUILD MASTER.

The Hon. Secretary (the Rev. C. A. Phillips, Bournemouth), in his annual report, observed that the first words of it should express their special share in the common sorrow of the Guild at the departure of the Master from the neighbourhood. Major D'Aeth resided close to the centre of that unwieldy diocese, and in a wonderful way attended most of the branch meetings. He was a Dorset man, the practices he and his brother started were mainly in that branch, and he had done more than any other man for change ringing in Dorset, especially among the beginners in the Exercise. They could best appreciate his long work among the bells of Dorset by spreading it more widely and carrying it on more perseveringly and faithfully in the spirit of his message to them that day. The programme of meetings had been only partially carried out for various reasons. Meetings were held at Corfe Mullen, Iwerne, and Swanage, and though not large were representative and keen, and good work was done. Practices were held at Swanage, Poole, Wareham, and Henstridge. At the former good progress was made with Treble Bob and Double Norwich. A peculiarly happy, keen, and united competition seemed to be going on between Poole and Swanage for the honour of carrying on the most advanced ringing in the branch and county. Good work was also being done at Corfe, assisted by Wimborne, and Childe Okeford, helped by Shroton. The question of the sub-division of the branch referred to North Dorset from the last annual meeting was thoroughly discussed at Iwerne Minster and unanimously approved. It would be inaugurated and followed by the good wishes, and also the continued good help wherever possible or desired of the members of the south.

The report was adopted, on the proposition of the Rev. F. Ll. Edwards (Kington Magna), secretary of the Diocesan Guild, seconded by the Rev. R. H. Gundry (Shroton).

Mr. Phillips also, as treasurer, gave particulars of the financial statement, which disclosed a small balance in hand. There were 204 ringing members.

The balance sheet also was accepted, on the proposition of the Rev. A. D. H. Allan (Wimborne), seconded by Mr. M. Stewart (Ferndown).

PROPOSED SUB-DIVISION OF THE BRANCH.

Some discussion took place regarding the proposed sub-division of the branch, which the Secretary explained would affect all the towers north of Blandford, or very nearly half the members.

A member expressed the opinion that the division would mean the ringing of the death-knell of the North Dorset branch, as he claimed there were not sufficient members to carry on the good work, and he thought it would be better to wait, perhaps, until they had arrived at more advanced methods.

Mr. Edwards emphasised the difficulties of transport in North Dorset, apart from Sturminster Newton and Shillingstone there not being a tower on the line. At present, too, no 8-bell towers were usable, although he hoped an effort would be made to rehang the Blandford bells, which meant that the new branch would be confined to 5 and 6 bell towers.

Mr. Gundry held that the difficulties created by separation were not insurmountable. At present the absolutely unwieldiness of the size of the branch, with the various companies of ringers scattered at such wide-apart places, rendered the working of the branch very difficult.

Mr. Martin Stewart endorsed Mr. Gundry's opinion, and claimed that in North Dorset there was a great field for enterprise, and 6-bell towers offered wonderful possibilities.

The Secretary said that there were several keen 6-bell towers on the border of the division, which should add greatly to the strength of the branch.—Eventually the meeting confirmed, on the proposition of Mr. Gundry, the formation of the North Dorset branch.

All the officers for the Wimborne branch were re-elected on the initiative of Mr. Edwards, with the addition of Mr. F. W. Townsend, of Poole, as Ringing Master, and the Rector of Poole acknowledged, as president, the compliment.

THE GUILD WAR MEMORIAL.

The Rev. F. Ll. Edwards drew attention to the proposed Diocesan Belfringers' War Memorial, explaining that under the present scheme for the Memorial Chapel in the Cathedral it was intended to restore one of the old side chapels. There was already in existence stone screen work, and it was suggested that the blank spaces should be filled in with oak panelling, and the Guild should associate themselves definitely with the memorial by providing the panelling for either both or one side of the screen, which could be decorated with suitable designs and any inscription they liked to submit. There was no particular difficulty in regard to the expense. A desire had been expressed that there should be a little more detailed knowledge of what the work would be, and he wrote to the Dean of Salisbury accordingly, and suggested the easiest way would be if the sub-committee appointed by the Guild at the last annual meeting to deal with the matter were to consult with the Dean on the subject at Salisbury regarding the designs, etc. — The Hon. Secretary mentioned that members at some branches had intimated they would have preferred putting in an extra bell or two somewhere, as had been done in other dioceses, but it was felt that such a scheme was too big to undertake. All the branches, excepting Bridport, had given approval of the proposed scheme, and Wimborne now signified its assent, on the proposition of Mr. Edwards, seconded by Mr. K. Gundry.

The towers of Wimborne St. Giles, St. John's, Bournemouth, and Wareham, were selected as meeting-places for the coming year.

OFFICE FOR USE IN BELFRIES.

Mr. Edwards mentioned that recently there had been printed a brief office for use in belfries, not only at Guild meetings, but before ringing. It had been drawn up by the committee appointed by the Guild, with the assistance of the Dean of Salisbury. The idea was that the incumbent or one of the clergy should at such times as arranged by him and the ringers go in the belfry and conduct this office before the ringing commenced, or it could be done by one of the ringers if he or she was willing to do so.

LOCAL RINGERS' REMARKABLE RECORDS.

The Hon. Secretary observed that a word of thanks and congratulation was due to three ringers of that neighbourhood, who, that Christmas, he believed, would each have completed very nearly, if not quite, 50 years' service in the belfry. They were Messrs. A. J. Osman and George Hart (Wimborne) and Fredk. Holloway (Corfe Mullen). Although the latter was unable to do very little ringing now, he (the secretary) hoped that he would be able to continue to ring for some years longer (applause).

Parties afterwards visited the towers of the Minster and Corfe Mullen Church.

DEVIZES BRANCH ANNUAL MEETING.

The annual meeting of the Devizes Branch was held at Trowbridge on Saturday, December 15th, when a good company was present. The Guild service was held in the church, conducted by the new Rector (the Rev. Canon A. S. Weatherhead). Tea followed, to which about 50 sat down, including the Rev. Canon Mogg, of Bishop's Cannings, and the Rev. A. H. T. Clarke, of Devizes, both hon. members of Guild, and Mr. C. H. Jennings, hon. secretary of the Dorchester branch. The following towers were represented: Bradford-on-Avon, Warminster, Westbury, Bratton, Molt, North Bradley, Keevil, Rowde, Trowbridge, Melksham, Devizes, St. John's and St. Mary's, and Bishop's Cannings, also ringing visitors from Swindon, Bristol, Bath and Chippenham.

The business meeting followed, Mr. C. D. Heginbotham being in the chair.

Mr. Heginbotham reported on the year's work, which showed that a steady increase had been made in the membership, both among the ringing and hon. members, and also that more members were learning the art of change ringing. Two towers were receiving instruction this winter. Mr. Heginbotham said he had visited 27 of the towers in the branch during the year, and had found them in very good order. Four towers were silent owing to repairs being necessary. The first peal of ten bells in the branch was opened on Easter Monday at Trowbridge, when nearly 300 ringers were present. Twelve peals had been rung during the year, thanks to the untiring efforts of Mr. S. J. Hector (Branch Ringing Master), Mr. S. Hillier and Mr. J. T. Dyke. Three towers had rejoined the branch—Steeple Ashton, North Bradley and Market Lavington.

The statement of accounts to date was read. Although the expenses had been heavy there was a small balance on the right side.

Mr. Heginbotham and Mr. F. Green were re-elected as chairman and secretary, respectively, with many thanks for their past services.

Thirteen new ringing members were elected to the branch.

The meetings decided on for the next three months were at Bradford-on-Avon, in January; Market Lavington, in February; and the quarterly meeting at Devizes, in March.

After the meeting some double-handed work on handbells was done. The tower bells were soon going again, and some good touches of Caters, Double Norwich, Stedman and Grandsire Triples were rung during the afternoon and evening.

THE FIRST PEAL OF DOUBLE NORWICH ROYAL. A FURTHER DISCOVERY.

By G. P. BURTON.

From some files of old Norwich newspapers, which have recently come into my possession, further information is forthcoming as to the first peal of Double Norwich Royal, which it will be recollected, was the subject of a special article in the issue of your valuable paper of 10th August last.

Turning to the 'Norfolk Chronicle' or the 'Norwich Gazette' (which latter is its sub-title), there is found in the number for Saturday, April 22nd, 1769, a much fuller, and fortunately, more explicit, account of the peal, than appeared contemporaneously in the columns of the other Norwich paper—'The Norwich Mercury.' And what is

St. Peter Mancroft Church, as it appeared at the time the first peal of Double Norwich Royal was rung. This picture is reproduced from an old print kindly let by Mr. G. P. Burton.

of greatest interest, the names of the ringers are recorded in this account now brought to light, thus filling that gap in our previous knowledge of the peal, and incidentally, furnishing the last link in confirmation of the performance, if that were needed. The following is the extract in question—

'On Monday, April 17th, 1769, was rung at St. Peter's Mancroft in this city, a compleat 5040 of that most ingenious peal called the Court Bob. It was performed in three hours and 29 minutes, without a bell being out of course; and from the harmony and regularity of its changes, filled every lover of the art of ringing with the most pleasing wonder and astonishment. This incomparable peal was invented in the year 1751 by Mr. Wm. Porter, one of the ringers belonging to St. Peter's company, and tho' from that time it has been annually practiced, yet never was perfectly gone through with, without bells being out of course, till now; so that it may be affirmed, that this is the first compleat 5040 that ever was rung in the known world—Performed by

John Chamberlin	Treble	Charles Jarvis	...	6
and call'd the peal		John Dixon	...	7
John Peak	...	James Watling	...	8
Thomas Barton	...	Simon Watling	...	9
Robert Dyke	...	and		
John Havers	...	John Dye	Tenor.	

Published by desire of the Churchwardens, W. Creasey and C. Copping.'

Notice the peculiar use of the word 'annually,' here employed in the present-day sense of continually; and the expression 'the first compleat 5040,' where obviously the words 'in that method' are intended to be understood.

Of the ringers, who took part in the peal, it may be worth noticing that James Watling called the 5170 of Grandsire Cinques rung on Nov. 23rd, 1775—the first peal on the present ring of twelve; while James Watling, Simon Watling, John Peak, John Havers, John Dixon, John Dye, and Thos. Barton took part in the 6240 of Oxford T.B. Maximus, which followed on March 16th, 1778, 'which excelled every attempt hitherto known on 12 bells,' as the peal board has it. But all these worthies had apparently vanished from the scene when the peal of Norwich C.B. Maximus was rung in 1817, at any rate their names henceforth disappear.

May I add that on consulting the files of 'The Norwich Mercury'

(Saturday, 22nd April, 1769) I find that the account of the peal of Double Norwich Royal is not verbatim as given in your article. The paragraph actually reads:—

'Monday afternoon 5040 Changes of Porters Peal of Court upon ten bells, was rung at St. Peter's of Mancroft by the Ringers of that Parish; which they completed in three hours and twenty-nine minutes.'

These old newspapers were weekly publications of 4 pages, and the scraps of ringing news appear in a miscellaneous collection of local items. Here are a few tit-bits from the same column, which throw a side-light on the doings of those days:—

'Yesterday nine convicts under sentence of transportation were sent from the castle for London, in order to be forwarded to the plantations.'

Interior of St. Peter Mancroft Belfry in the 18th century. From a water colour sketch by Nisnam.

'Lately died at Bury, Mrs. Wright—a widow lady of an exemplary character.'

'A lady of great consequence lost the sum of 5000 L a few nights ago at Hazard.'

'On Monday last a woman at Acle was committed to Bridewell, there to be kept to hard labour for 14 days, and to be once publicly whipt, for reeling false and short yarn.'

As regards Wm. Porter, the inventor of the method of Double Norwich Royal, it may be of interest to mention that the 'trunk'—a box of wood covered with skin or leather—made by him and bearing his initials to which reference is made in Snowdon's 'Double Norwich,' is still in existence here at Norwich.

BELFRY GOSSIP.

To all our readers we extend every good wish for

A HAPPY & PROSPEROUS NEW YEAR.

Thirty-five years ago on the last day of December, the Oxford Diocesan Guild put up a record peal of Stedman Caters, which stood until 1909. Twice before in the year 1888 the Stedman Caters record had been broken, and then the Oxford Guild rang a 15,041 on the famous bells of Appleton. The time was 9 hours 16 minutes.

Four years later the Oxford Guild captured another record, 12,098 Double Norwich Major, rung in 7 hours 10 minutes at Maidenhead on December 31st, 1892.

January 1st will be the 130th anniversary of James Barham's one hundredth peal. To have made such a score as that in those far-off days was a marvellous performance, and the peal was noteworthy from the fact that the combined age of the band totalled 582 years. Barham lived twenty-five years after that, for he died at the age of 93 on January 4th, 1818.

One of the first occasions on which Holt's Original was called by a ringer taking part in the peal was at Saffron Walden on January 1st, 1754.

A peal of Norwich Court was rung at Soham on the first day of 1795.

The first peal of Halifax Treble Bob was rung on January 1st, 1866, at Huddersfield. It was composed by William Sottenstall.

At Wrentham, on January 3rd, 1824, was rung '59 peals of Grand-sire and Old Doubles, which was performed in a most masterly manner in four hours.' This made up 7,080 changes, and, all being well, a centenary peal of Minor will be attempted at Wrentham on Thursday.

A correspondent to the 'Western Gazette' inquires where are Houghton bell ropes. He says: 'Over four years have elapsed since sufficient money was raised to buy bell ropes for the church. Perhaps one of your readers could tell me where the money is. Is it deposited in a bank, invested in a company, or used for other purposes? Surely it is time we had merry peals at Christmastide.'

The inaugural meeting of the Peterborough Diocesan Guild will be held at Wellingborough on January 5th.

CHRISTMAS BELLS.

O Christmas bells, O silver bells,
Chimes pealing glory unto God on high,
Bear sweet, as ever your music swells
And sweeps in beauty down the midnight sky,
A message of good-will to men,
Peace upon earth
For the Christ's birth,
Bending all hearts to love His law again!

O joyous ringing in the night,
O glad carillons of the holy dawn,
Be sign that charity shine white,
And all the veils of darkness be withdrawn,
So loveliness of God may pour
From a Manger-place,
To nil with grace
Hearts worshipping within a stable door!

TEN-BELL TOWERS.

AYLSHAM, NORFOLK.

By J. R. JERRAM.

In the will of John Betts the elder, of Aylsham, shoemaker, dated 1529, is the following bequest:

"Item J will ther be bought a tribill bell to the V bellys in the steple of Ailish'm by the advyse of Ed. With of Ailish'm and John With his sonne of and for the s'm of Xli. And if it may be bought better chepe J bequethe to the seid Edmu'de With and John for ther labor iche of them vis. viij*d*. And the rest if any be to be bestowed abought the frame of the same bell to hang yn."

This bequest, however, seems not to have taken effect, for it appears from the Inventory of the sixth year of Edward VIth that there were then only five bells in the steple.

These two founders appear to have been employed when the peal was augmented to eight in 1700. They were paid £23 17s. 6*d*. in cash and £19 13s. 6*d*. in bell metal for casting four new bells in that year.

In 1726, John Stephens, of Norwich, recast the sixth (now the eighth) bell, at a cost of £17 3s. 3*d*.

In 1741 the present ninth bell (then 7th) was recast on the spot by Thomas Newman, of Norwich, at a cost of £18, besides various items for bricks for the furnace, clay, carting materials, building furnace, stocks and ironwork, ale for the men, and cleaning up the church after the work was done, amounting altogether to £31 1s. 0*d*.

The peal seems to have been augmented to ten bells in 1775 by Thomas Osborn, in conjunction with Edward

AYLSHAM CHURCH, NORFOLK.

A tablet in the belfry is inscribed: "John Curtis and Thomas Coulson Churchwardens when this Ring was made into eight, 1700."

Previous to this we find in the accounts for 1647-8, "Pd for ye Bricke carrying wch was used about the new running ye great bell, 4s. 0*d*," and in the following year occurs: "Paid John Long for his hempe stryng at the greate bell shooting, 10s. 0*d*;" and, further, "Pd. for the vse of the barne and making it good againe, £1 0s. 0*d*."

Among the documents in 1653-4 are two bonds of John Draper and John Brend in £50 each for "well shootinge the great bell." From these items it appears that the tenor was recast on the spot at that time.

In 1677-8 Samuel Gilpin, of Norwich, was paid £35 for some recasting, and in 1683 he was paid £1 18s. 10*d*. for recasting the saint's-bell, and for the third bell £14 14s. 6*d*. In 1685 he recast the fifth bell. This work he appears to have carried out in conjunction with Edward Tooke, with whom he worked.

Arnold, of St. Neots, before T. Osborn established the foundry at Downham on his own account. They appear to have recast the two existing trebles and added two above them, and were paid £43 1s. 10*d*. for the same in two instalments.

The present seventh was recast by G. Mears in 1860 and weighs 9 cwt. The former bell was cast by Edward Tooke in 1677.

The inscriptions on the bells are as follows (all in Roman capitals):

- Treble.* George Hunt Holley and John Soame. C.W. Osborn & Arnold fecit, 1775.
- Second.* John Soame and George Hunt Holley. C.W. Osborn & Arnold fecit, 1775.
- Third.* George Hunt Holley and John Soame. Osborn & Arnold fecit, 1775.
- Fourth.* John Soame and George Hunt Holley. Osborn & Arnold fecit, 1775.
- Fifth.* 1700 (by Samuel Gilpin and Edwd. Tooke).

MIDLAND COUNTIES ASSOCIATION.

A most enjoyable meeting of the Loughborough District was held at Stanford-on-Soar, where, on the beautiful peal of eight some well-struck touches of Grandsire Triples, Stedman and Bob Major were brought round during the afternoon. The members then proceeded to the bell foundry tower, where, by kind permission of Messrs. Taylor and Co., the little peal of ten (6½ cwt. tenor) were set going to Stedman Caters, Grandsire Caters and Treble Bob Major. Some thirty or more members were present from Ugglescote, Shepshed, Neatherseal, Long Eaton, Leicester and Loughborough.

Mr. J. Saddington was again elected district secretary for the ensuing year; Messrs. J. H. Dear and H. Whittle were elected on the committee.

**ANOTHER SURPRISE METHOD RUNG.
OSWALDTWISTLE RINGERS' SUCCESS.**

One of the Surprise methods by Mr. Arthur Craven, of which a half lead was published in our issue of November 9th, has been rung by the enterprising company at Oswaldtwistle, Lancs, and they have named it 'Palatino.' The peal was rung at the first attempt, and it is noteworthy that the band included two ladies.

The following is the method and the composition of the peal:—
Palatino Surprise Major. 5,184 by Arthur Knights.

CHIDDINGSTONE, KENT.—On Monday, December 17th, a quarter-peal of Grandsire Triples was rung as a birthday compliment to Mr. C. Aylward: Miss Gladys Young 1, H. Huntley 2, N. Butcher 3, C. Aylwood 4, A. Aylwood 5, A. Wiles 6, C. H. Everest (conductor) 7, A. Longley 8. Miss Young is the first lady to ring a quarter-peal in Chiddingstone.

'EDINBURGH SURPRISE.'*To the Editor.*

Dear Sir,—While congratulating the Leiston men on their achievement in ringing a peal of the above, I must object to them calling it a new method. It is rather an arrangement, consisting of half of each of two different Double Surprise methods, viz., Bristol and Peterborough Surprise, spliced together at the quarter sections by the use of adjoining places in 1—2. I think this is a very unfortunate thing to do with two such perfect methods. Bristol Surprise has stood 25 years as the only Surprise method which contains none of these adjoining places, and I append two more Surprise methods to share this distinction with Bristol.

Both Methods
to have 6th's place Bob.
No. 1 has one false
course 24365.

No. 2 has a
clear proof, and
is half 'Bristol,'
for which I apologise
to Mr. James.

ARTHUR CRAVEN.

FROM CALL CHANGES TO METHOD RINGING.

At All Saints' Parish Church, Broseley, Shropshire, on Tuesday evening, December 18th, a quarter-peal of Grandsire Doubles (1,260 changes) was rung, consisting of ten and a half 120's, each called differently, in 43 minutes: J. Smith 1, W. J. Garbett 2, A. J. Garbett 3, W. Saunders (conductor) 4, A. H. Meredith 5, J. Hartshorne 6. First quarter-peal by all except the conductor. First quarter-peal on the bells. Also three 120's, with C. E. Smith ringing the 4th.

Until April of this year only call changes had ever been rung by local men at Broseley. The Rector (the Rev. W. Warner) joined the Hereford Guild as an honorary member, and all his local ringers as probationers, at a quarterly meeting of the Bridgnorth district of the Hereford Guild, held at Broseley in April. All who have heard the ringing since change ringing started at Broseley, are highly pleased with the improved sound of the bells. A lot of the instructive work has also been done on handbells.

A VETERAN'S WEDDING ANNIVERSARY.

Mr. William Shepherd, 78 years of age, for many years a well-known ringer at Emmanuel Church, Streatham Common, has just celebrated the fifty-sixth anniversary of his wedding by taking part in a quarter-peal of Grandsire Triples (1,260 changes), on Monday, Dec. 17th: W. Shepherd 1, Miss E. E. Chapman 2, Miss F. E. Orr 3, T. Welbourne 4, C. W. R. Grimwood 5, J. Lee 6, J. W. Chapman (conductor) 7, W. J. Anscombe 8.

BEDFORDSHIRE ASSOCIATION. SUGGESTED CHANGE OF TITLE.

The annual meeting of the Luton district was held at Dunstable on Saturday, December 15th, when the following towers were represented: Aspley Guise, Barton-le-Cley, Luton, Leighton Buzzard, Linslade, Woburn, and Houghton Regis, together with a full muster of the local band. Among the visitors was Mr. E. G. Benson, of the Cambridge University Guild. The bells were utilised from 3 to 4.50 p.m., when a short service was held, conducted by the Rector (Canon W. W. C. Baker, president of the Bedfordshire Association) who gave a short address, which was highly appreciated by the members present.

The tea and business meeting was held at the C.E.M.S. Club, the arrangements having been in the capable hands of Mr. F. Hardy, the club steward, who is also vergor of the church. The tea was generously provided by Canon Baker.

The annual meeting followed, with the president in the chair. On the proposition of the Chairman, Mr. A. King, of Luton, was elected president of the branch for the ensuing year; Canon Baker remarking that he thought the office should go round.—Mr. Cyril Herbert, of Woburn, was elected vice-president, to fill the vacancy caused by the elevation of Mr. A. King.

The hon. secretary was re-elected, on the proposition of Mr. J. Marks, and Messrs. J. Nicholls and H. H. Smith were elected on the Central Committee.

An interesting discussion was raised by Canon Baker, who brought the matter forward for the consideration of the members, a suggestion that the time had come when the name of the association should be changed to 'The Bedfordshire Association of Church Bell Ringers,' and to rescind the rule stating that a member must be able to ring 120 changes before being eligible for membership. All ringers in the county, whether method ringers or not, would then be eligible for membership.

Several members expressed their views on the subject, and all present were asked to give the matter due thought and consideration before the annual general meeting.

The usual votes of thanks were accorded, and the tower again visited until 8 p.m. Some excellent striking in various methods was heard during the day, the methods rung including Stedman Triples, Bob Major, Double Norwich, Superlative, Cambridge, and Bristol Surprise Major. Members of the local band took part in each of the Surprise methods rung.

SHREWSBURY'S OLDEST RINGER.

On Sunday, December 9th, at St. Chad's Church, Shrewsbury, 381 Stedman Caters: G. Byolin (conductor) 1, J. Griffiths 2, W. B. Kynaston 3, J. E. Lilley 4, R. Pole 5, A. Short 6, G. Jones 7, D. J. Boucher 8, C. R. Lilley 9, J. Evans 10. Also 180 Bob Royal. Rung on Mr. G. Byolin's 70th birthday. On Wednesday, December 12th, a peal of Double Norwich was attempted also in honour of the event, but was not successful. The members taking part were F. Lycett 1, J. Griffiths 2, G. E. Lilley 3, W. B. Kynaston 4, G. Jones 5, D. J. Boucher 6, R. Dale 7, C. R. Lilley 8. Mr. Byolin is the oldest ringer in Shrewsbury, and revived change ringing there 30 years ago. Believing it is never too late to learn, Mr. Byolin took up Double Norwich ringing about six months ago.

INFORMATION WANTED.

To the Editor.

Dear Sir,—As a ringer who porforce takes a great interest in five-bell ringing I have lately come across this method:—

12345			
21354			
23145			
32415	Bob	24135	Single 24135
34251		21453	21453
43251		12435	12435
42315		14253	12453
24135			21435
21453			
12543			
15234			

1. Can any of your readers give me the correct name for this method, and also tell me if 16 six scores is the greatest possible number to be obtained in it?

2. In the preface to 'Legitimate Methods' the number of six-scores obtainable in Carter's is given as 10. Having only been able to obtain 5 by means of the single given there, by calling single once in each part, I should like to know how others are obtained.

3. Can anyone give me the name of any work on change ringing in which the calling of six-scores in Original is explained?

DOUBLES RINGER.

PRIZE RINGING 80 YEARS AGO.

AT MOTTRAM-IN-LONGDENDALE, CHESHIRE.

BROTHER RINGERS,—

We beg leave to inform you that there will be a Prize Ringing, AT MOTTRAM, ON TUESDAY, JAN. 2nd, 1844,

For the following prizes, viz.,

For the best true Peal of Kent, or old Treble Bob Major, consisting of 2,528 changes; the first prize of £3.

For the second best Peal of Kent, or old Treble Bob Major, consisting of 2,528 changes; the second prize of £4.

For the third best Peal of Kent, or old Treble Bob Major, consisting of 2,528 changes; the remaining prize of £2.

Each company of ringers will be allowed two courses for practice, on Monday, January 1st, 1844, and no practice peal will be allowed previous to that day, nor after 9 o'clock in the evening.

Each company must provide their own ceusors. All companies are requested to repair to the house of Mr. Miles Goddard, the Hare and Hounds Inn, where some of the ringers will be in attendance to direct them to their respective quarters.

We are, Gentlemen,

Yours most Respectfully,

THE COMMITTEE OF MANAGEMENT.
COMMITTEE.

James Shaw, Chairman.	William Shaw, Treasurer.
Simeon Sandiford.	John Cooper.
Thomas Shaw.	Charles Shaw.
William Harrison.	Robert Shaw.

THE PEAL (2,528 CHANGES).

52436	2	2	2
*54326	1	2	2
23456	—	2	2

The above is a copy of an old circular which was unearthed by Mr. A. Sidebottom, and will be read with much interest in these days when prize ringing for money is a practice long since condemned and abandoned.

The prize ringing contests in the Glosopdale and Longdendale district in years gone by attracted the best performers from Lancashire, Yorkshire, Cheshire and Derbyshire.

MISCELLANEOUS PERFORMANCES.

CARSHALTON, SURREY.—On Wednesday, November 28th, at All Saints' Church, a quarter-peal of Grandsire Triples (1,260 changes), in 44 mins.: T. Bloxham 1, T. G. Bannister 2, H. G.
