THE CHURCH OF ST. JAMES, TALATON, DEVON

OUR COVER PICTURE

Church of St. James, Talaton, Devon

TALATON lies a little to the north of the London-Exeter road near the notorious Rockbeare Straight which holiday motorists know so well; perhaps it is because it is so near to such a busy road that so few people take the time to visit it, but they miss seeing a fine church with an outstanding Devon screen as well as the unusually decorative tower shown in the photograph.

The bells are a good ring of six with a tenor of 12½ cwt., and they are all of different dates. The oldest is the 4th, a beautiful casting from the Exeter foundry dating from the latter part of the 15th century. Her inscription is one of the Exeter "stock" inscriptions, "Protege virgo pia quos convoco Sancta Maria"—"Saintly virgin, Holy Mary, protect those whom I call." The tenor is one of the finest of the surviving bells by the Somerset founder Roger Semson, who worked during the reign of Queen Mary I at Aish Priors, near Taunton. On this bell he inscribed in large curly capital letters: "Confessores sancti omnes orate pro nobis"—"All ye holy confessors pray for us." The inscription is decorated with crowns, a rose and a fleur-de-lys, but the biggest and best ornament is an impression of the seal, about 4in.

across, of a 15th-century Countess of Warwick, Joanna de Beauchamp. The same inscription and ornament appears on the tenor at Bradford-on-Tone; there seems to be no clear connection between either parish and the owner of the seal, so perhaps Semson may have got the seal by way of scrap, and kept it for decoration.

The ring must have become a five comparatively early, for the 2nd was formerly a bell by John Pennington of Exeter, cast in 1661. In 1751 the 5th was recast by Thomas Bilbie of Cullompton, decorated with roses; and in 1792 the younger Thomas Bilbie recast the 3rd, which is decorated with Bilbie's little bell-stamps.

The treble of the six came from Warners' in 1891, when the ring was rehung. A further rehanging came in 1932, when Gillett and Johnston recast the 2nd and the whole ring was hung in a new iron and steel frame with iron headstocks and new gear.

In late years the Talaton ringers have been increasingly successful in competition-ringing; their village being just south of the dividing-line, they count as a South Devon tower, and generally get into the Devon six-bell competition among the first six bands of their half of the county. ANATOMY OF A TOWER

A correspondent recently noted, rather sadly I thought, the number of ringers who had been in—and out—of his tower since 1943. He suggested that ringing there would today be better and more regular if they had not had such a high turnover.

I would like to put an opposite point of view—a steady supply of new recruits is the way to keep the bells ringing.

I have been looking up our records. Since 1946, when the band restarted from scratch, there have been 73 members of our tower. During the whole of this time there have not been more than half a dozen Sundays (ail, I think, in summer holiday time) when the bells have not been rung. Mostly the six bells are rung to Grandsire, Stedman and Plain Bob, well-aced with rounds and call changes. Cambridge and London have at times been within our capabilities but not so often. Mostly the standard of our ringing on Sunday has been quite reasonable. I think our church has had the sort of service from its ringers that it has a right to expect. To be sure a lot of people have helped to perform that service—but I can see nothing wrong in that. The bells have been rung and rung quite well.

No tower is typical, and ours is no more than anybody else's. We are fortunate in being in a suburb that supports its church well and whose population are mostly professional people or the children of professional people. But how these people move about! Someone who has lived in this area for ten years is a rarity. When they are not moving house they are doing homework or travelling in foreign parts. This constant coming and going is not, however, something to be regretted; it is merely something to be taken into account in doing our job.

Here are a few more figures from our records. These refer only to the time since 1956, because this is the period of which I have personal experience and can interpret. Since 1956 there have been 41 members of the tower. The length of service has been made up as follows (the figures in brackets denote those who are members at present):

Years of Service	No. of Members
19	1
16	1
12	3 (2)
10	1
8	1

6	2
5	2 (1)
4	6 (1)
3	7
2	5 (3)
1	8 (3)
6 months	4 (2)
	41 (12)

A member is one who rings at least once a week. It does not include those who still live in the area but are now at college and only ring in the vacations.

The average length of service is just over four years (it is currently only 3.6 years.)

Of the 41, all but 10 learned to ring in the tower.

Of the ten who did not, five could do little more than handle a bell when they joined us, and five were up to peal standard, though only two had rung more than two or three peals.

Of the 29 who are no longer regular members, all but five left because they moved away from the area.

Of those who have left the district, I think 10 or 11 are still ringing, but of this I cannot be sure.

Of the 41, almost all have attained quarter peal standards, and the majority peal standard.

Allowing for those who were members before 1956, the average rate of recruitment is about one ready-made ringer per year and slightly over two raw recruits.

To my mind, the most important factor by far that has enabled us to keep our bells going over this period has been the recruitment, come hell or high water, of three ringers a year. We are geared up always to teaching people and try to bring them along as fast as they will come to maintain their interest and everybody else's. I must admit that there are times when the belfry is a little overcrowded, but at least it is never understaffed. Our recruits usually attain their first quarter in six to 18 months, and even if they are members for only two years they can be really useful ringers for most of that time.

I do not foresee that there will ever be a time when we do not need to recruit three new people a year. I do foresee that if we do not stick firmly to that policy our tower could soon become undermanned like too many others. P. G.

A SELWYN COLLEGE CENTENARY PEAL

ACCRINGTON PEAL OF GLASGOW UNDER FIRE

Dear Sir,—It is the custom for the conductor of a record peal to congratulate the band that subsequently breaks this record. However, in the case of the 12,096 Glasgow Surprise Major rung at Accrington on January 6th, exceeding the 11,872 which we rang at Edgbaston in November last year, I cannot do so with any sincerity.

First, I understand that the peal is not being claimed as a record. This is regrettable, since the majority of ringers will regard it as the new record (I do), even though it cannot be recognised officially. The result is that it debases the status of our official record and generally throws the keeping of records into disrepute.

Secondly, it is clear that the aim must have been to surpass our record, else why was Glasgow chosen when the field is wide open for hundreds of other records? This being so, why was not seven days' notice given, as required by the rules for record attempts? This last point is perhaps the most unfortunate of all, since the rule was designed to give ringers (and particularly those who rang in the existing (and record) the opportunity to listen to the attempt. I know that most of our band would have been keen to go to Accrington. We gave the required notice for our attempt and rang a very good peal, as many can testify. We are disappointed that no similar opportunity was given to us.

Thirdly, the ethics associated with the composition for this peal must be considered dubious, but I shall not go into this in any detail since it is being dealt with in a separate letter by Mr. Peter Border.

I would point out that this is not the first time that such an incident has occurred. A record length of Pudsey Surprise Major was rung at Loughborough last November, but this was not publicised in advance nor claimed as a record. This practice should be deprecated most strongly, both by the Guild for whom the peal is rung, and by the Exercise as a whole. The field of record lengths is generally one of endeavour and achievement; these performances only belittle it.—Yours faithfully,

RODERICK W. PIPE.

Birmingham.

Brian Woodruffe on Record Peal Regulations (see page 103).

Dear Sir,—There are a number of ethical points which should be made in connection with the recent "long peal" of Glasgow Surprise Major rung at Accrington. I am not primarily concerned with the ethics of the performance itself; my own first interest is in the composition, published in your issue dated January 26th.

It is immediately apparent from the published figures that in order to join all of my 54 courses of Glasgow together, Richard Parker has had to resort to the use of an unusual call, to put it mildly. Rather less obviously, this "single" is made in 4-5 at the half-lead. I can see no reason for this call to be made at the half-lead at all (a single in 4-5 at the lead-end serves the same purpose), unless it could be that Richard Parker believed that this might be easier to get away with.

Surely he cannot be so naive as to suppose that I cannot recognise for myself the possibility of joining up otherwise unjoinable courses by the introduction of special calls. Special calls were commonplace in the early days of composition, particularly of Triples, but even then they were regarded with disfavour, and only used because they appeared to be unavoidable. I for one heartily approve of the traditional abhorrence of special calls, with the result that my composition ran to 53 courses only. This is not to say that I did not examine the possibilities of the normal single—it had none!

I would point out that I am perfectly well aware that the special call in question does not contravene the existing regulations governing the compositions of record peals. I suggest that these regulations may well not have been drafted so as to cover every eventuality, and now that this issue has arisen perhaps they should be re-examined.

One last point. If the use of special calls in record peals is regarded as acceptable, the field is wide open for attacks on all sorts of existing records. For instance, I know for a fact that the existing record of 14,144 London Surprise Major can be exceeded by a fairly handsome margin. I have worked out a suitable composition, which I do not intend shall see the light of day.—Yours faithfully,

PETER BORDER.

Barford, Warwicks.

George Augustus Selwyn, in whose memory Selwyn College, Cambridge, was founded, was consecrated Bishop of Lichfield on January 9th, 1868, and to commemorate this centenary it was decided that a band of ringers drawn from matriculated members of the College should attempt a peal at Lichfield Cathedral on Saturday, January 13th.

The band were entertained to a magnificent tea by the Bishop, the Rt. Rev. A. S. Reeve, an Honorary Fellow of the College, and met several members of the Cathedral Chapter, one of whom acted as host to the travelling reserve, R. A. Harrison.

A peal of 5,040 Plain Bob Royal was rung in 3 hours and 15 minutes, conducted by Dr. C. M. P. Johnson, the Bursar of the College, who thus became the sixth person to reach a century of peals for the Cambridge University Guild. In 1954 members of Selwyn rang two peals of Major, but this is believed to be the first time a peal of Royal has been rung on tower bells by members of a single Cambridge or Oxford College. V. N.

Those appearing in the photograph (left to right) are: A. R. Heppenstall, K. J. Triplow, H. E. Bishop, P. M. Wilkinson, P. A. F. Chalk, C. W. Woolley, C. M. P. Johnson, R. A. G. Inglis, V. Nutton, R. D. St. J. Smith and R. A. Harrison (reserve).

SOUTHWELL DIOCESAN GUILD

Miss Ruth Blackshaw, the hon. secretary, reported a very good year at the annual meeting of the Bingham District at Bingham on January 13th. The Bell Repair Fund reached £43 for 1967, a grand effort. Lowdham had made a very good upstairs ringing room after weeks of hard work. Meetings had been reasonably well attended and steady progress was being maintained. Membership had been almost doubled since formation in 1962.

Officers elected were: Mr. D. Clark, chairman; Miss R. Blackshaw, secretary; Messrs. H. Hanson, D. Stainsby and Miss I. Anthony joint Ringing Masters; Mr. M. W. Harrison, committee member.

Eight new members were elected: Mr. and Mrs. R. Spray (Colgrave), Pamela Clifton, Joan Carter (Bingham), Susan O'Neill, P. Wild, R. Anthony, J. R. Rigby (Gedling).

The Rev. F. Stephena conducted Evensong, and tea in the Women's Institute Hut was very welcome on a cold, wet day.

The Eighth Grantley Hall Course

By Christopher Groome and Marcia and David Gomersall

SNOW and the closeness of Christmas provided a fresh background to the 1967 Granley Hall Course, enhancing the fine setting of the hall and highlighting the hospitality and friendship which ringers have always found at Grantley.

It was the eighth course at Grantley under the leadership of Norman Chaddock, and lasted from the evening of Friday, December 8th, until teatime on Sunday, December 10th. Among regular attenders it was rated the best yet. There is no doubt that the course has gained an ethos and momentum of its own with a good balance between theory, practical and recreational time.

The course was welcomed by Vernon Bottomley in his capacity as president of the Yorkshire Association. Together he and Jeanne ensured that everyone was welcomed and the only regret was that they could not stay the week-end. The tutors, Messrs. Wilfrid Moreton, Henry Fielden and Norman Chaddock, then each gave a short synopsis of the lectures they were to give, to help students make their choice of lectures. The Washington film followed and then began the round of conversation and handbell ringing which shows that ringers enjoy being together and, at Grantley, has a strange effect on the other course (drama this time) sharing the week-end.

Saturday offered a full programme of lectures in the morning and practical sessions in the afternoon.

CONDUCTING—PRIORITY

For the more advanced ringers, Henry Fielden, a "new boy" at Grantley, offered a series of lectures on conducting from Plain Bob to Surprise Major. It was a very personal and colourful interpretation of the theory rather than a neat package, to leave the students admiring but gasping. As a result the practical side of conducting came over much better. Well worth repeating is Henry's order of priority for the conductor:

"Keep his own bell right, put the calls in the right places, and only then is he able to put other bells right. An ability to call 'Stand' rather than to indulge too much in the last activity seemed to fit in somewhere."

One group under Mr. Moreton learned how to construct Double Court; then tried ringing the method that had been constructed following the "blue line." In the afternoon we had a practical session at Kirby Wiske, where we practised the two methods we had been studying in earlier sessions.

At our next session we learned how to construct Oxford, Double Oxford, Cumberland and St. Clement's; then, after Mr. Moreton had explained to us the best way of constructing these various methods, we rang St. Clement's on handbells. The way in which we were shown a method and had it explained to us, followed up by trying to ring it on handbells, was indeed an excellent way of learning a method.

Others joined the group under the tuition of Mr. Chaddock for elementary change ringing. It was amazing what we did not know, particularly where the theory side of ringing was concerned. Our session commenced with the principles of plain hunting and how the course was made up. This was developed until we could write out a course of Plain Bob Minor, paying attention to how

the dodges were formed. When we had written that out we had a short practice on the handbells, ringing what we had learned. At the next session we went into greater detail of Plain Bob Minor and learned the basis of bob work. We were given various duplicated notes on striking and rhythm.

On the Saturday morning a practical session on elementary conducting was held at Kirby Malzeard under Norman's supervision. Here some half a dozen budding conductors each simultaneously called three or four touches of Bob Minor.

ORGANISED AS A MEETING

Ringling on the ten at Ripon Cathedral was organised as for a district society meeting. As the course had ringers at all stages of development, including non-ringers, who had their first "ting," this was a fair test for Norman as Ringing Master. As an experiment all members of the course handed in to the Ringing Master, before ringing started, a slip of paper on which their ringing "requests" were written. This proved quite successful. Everyone had a chance to develop their ringing in a wide variety from rounds to Surprise Royal.

After dinner Ted Hudson treated everyone to an hour on "The Other Side of Ringing." It was surely one of the most fluent and best assembled set of facts and observations on the place of ringing and ringers in the community and on their relations with each other.

The evening closed with handbell ringing for all tastes—tunes with Norman, single-handed method ringing with Wilf Moreton and double-handed with Henry.

Another welcome innovation of which the students took good advantage was the "tutorial." During each session one of the tutors was available to help students for whom neither of the set activities was suitable. Much use was made of this facility.

After breakfast on Sunday morning the usual short service was ably taken by Mr. Hudson. Most of the Drama Group joined the ringers. Would that all services at ringing meetings were so appropriate, simple and effective. It was preceded by a course of Grandsire Triples on handbells.

On Sunday afternoon further instruction in bell control and easy method ringing was given by Mr. Moreton in the tower. Sunday also included two sessions of carol ringing in four-part harmony using about 30 bells, organised by Mr. Chaddock. These proved an enjoyable relaxation for those taking part.

At the final "get together" the tune ringers played a carol and there was a universal feeling that the week-end had been very successful from all points of view—ringing, social and gastronomic.

SUSSEX LADIES TO TRY AGAIN

At the annual general meeting of the Ladies' Guild, held at St. Mary's, Eastbourne, on January 9th, there were only five ladies present at the business meeting. A proposal was submitted that the Sussex District of the Guild should be discontinued. It was, however, decided to continue the District for another year in the hope of better support.

There was ringing in the afternoon and evening until 8 o'clock. The Vicar conducted a short service and local ringers were thanked for the excellent tea provided.

Next meeting: Hailsham. June 29th.

ST. ALBANS GIVES EVIDENCE OF A LIVE DISTRICT

THE annual meeting of the St. Albans District was held on January 20th at Hatfield. During the afternoon the ten were rung to methods up to Surprise, and a course of the special method, London, was achieved, although quite a few found all their effort spent in handling the longish draught. A service was held, followed by tea, at which a vote of thanks was given to the Rector, the Rev. J. Stow.

The Association president (Mr. E. T. Newnham) took the chair for the business meeting. Although the District had lost none of its own members during 1967, all present stood in silence in memory of Eddie Buck, of the Northern District.

The minutes of the last annual District meeting were read and accepted, and also the secretary's report and the accounts. Mr. Robert Hardy was elected secretary and he was thanked for stepping in as acting secretary during the year. Mr. Gerald Penney was re-elected as Ringing Master; he was thanked for all the time he had put in on the organisation side as well as the meetings, and he replied that he felt he'd done the job for enough years now and would like thoughts on a replacement for 1969. Miss J. Fellows was re-elected "Ringing World" representative. The committee was elected as follows: Mrs. Coburn, Miss Fellows, Messrs. G. Dodds, J. Ewer, R. Brown, E. Edmondson and G. Penney. Messrs. G. Dodds and G. Penney were elected to the General Committee. Miss J. Fellows was elected to write up the District peal book.

The proposed list of towers and special methods for 1968 were discussed. Mr. Penney said it was proposed to carry on with the special methods and expressed the wish that all members would look them up before and not during the meeting. The next meeting will be held at North and South Myms on February 17th, when York Surprise Major will be the special method.

On the social side, the District agreed to hold a dinner (after a break of one year), a social, barbecue and a coach trip to TV studios. Special practices at individual towers would be arranged on request, and invitations were immediately received for Wheathampstead in February and St. Paul's, Waldon, for March. These are always on the first practice night of the month.

Mr. Fred Ellis, of Wheathampstead, announced that the Wheathampstead ringers were hoping to raise money to add two trebles to the six. They have already raised £250, and although they are aware of the fund in progress for the Central Council visit they hope to organise some money-raising efforts in the near future, which they trust everyone will support. There are still no plans to raise the floor or add rope guides!!

On a more serious note, Mr. Jack Dear, of the Northern District, conveyed Mrs. Eddie Buck's appreciation of the representation of the St. Albans District at her late husband's funeral. The secretary added that he had written expressing sympathy on behalf of the District.

Votes of thanks concluded the meeting and ringing followed.

MARSTON, OXFORD.—On Dec. 20th, 1,260 Grandsire Doubles: M. Bolton 1, L. R. Porter (cond.) 2, H. Page (first "inside") 3, N. D. Deam 4, A. Gammon 5. For candlelight service. Also on Jan. 7th, 1,260 Grandsire Doubles: G. Archer (first attempt) 1, L. Porter 2, H. Page (first as cond.) 3, N. D. Deam 4, A. Gammon 5. For Evensong.

SILENT TOWERS IN THE CITY OF LONDON

By David L. Cawley

In response to the recent request for information as to the silent towers in the City of London, I append the following information:—

St. Andrew's, Undershaft (6).—This ancient and melodious ring is now hung dead in the old frame, and rung by a clavier; the old ringing fittings are in a heap in the bell chamber. The tower is reported to be too weak to carry a ring of bells.

All Hallows', Berkyngechurch (18).—The old eight were totally destroyed in the blitz, and a magnificent chime was erected by John Taylor and Co. in 1948, with a bass bell of 41½ cwt. in C, but all hung "dead."

St. Botolph's, Aldgate (8).—Now rehung with the sixth recast. This superb Whitechapel ring (25½ cwt.) is in regular use again.

St. Dunstan's-in-the-East (8).—The magnificent new ring, cast in 1951 by John Taylor and Co. from the metal of the old and heavier eight damaged in 1941, has been thoroughly put in order, but there can be no regular organised ringing until the tower is buttressed. Occasional ringing is permitted. Tenor 21½ cwt. in E flat.

St. Dunstan's-in-the-West (8).—A complete eight by T. Mears & Co., 1830, tenor reputedly 19 cwt. in F. The bells are hopelessly derelict, several are cracked, and all are dilapidated and

filthy beyond description. I understand that they are to be sold for scrap. The famous clock "jacks" are intact; the other clock, in the tower, has gone to St. James', Bermondsey.

St. Katherine's, Creechurch (6).—This church was narrowly saved from demolition and restored a few years ago. In the small tower is a derelict ring of six, from which the wheels, stays and sliders have been removed; both headstocks and frame are dilapidated, the former being renewed when the tenor (10½ cwt.) was recast in 1842. The bells are not even chimed.

St. Magnus the Martyr's (10).—The bells were removed in 1939 for safety, and still lie at Whitechapel. They were last pealed in 1938, and many peal boards adorn the filthy ringing room. The old oak frame remains, with the tenor headstock still suspended from its bearings. Several of the bells are cracked, and overtures by many people regarding their restoration have been treated with contumely by the authorities until recently.

St. Mary's, Woolnoth (3).—The only ringable three in London; in weight they go 2½ cwt., 5 cwt. and 11 cwt.; they are wildly out of tune and run badly. There are also ringable

single bells at St. Margaret's, Pattens, and St. Bride's, Fleet Street (15½ cwt. in F), the latter replacing the blitzed ring of 12.

St. Sepulchre's (10).—Last rung in 1938. The famous bells of Old Bailey appear intact, though the pigeons have taken over the bell chamber and ringing room, leaving the tower like one of the Guano Islands. An excellent article by the churchwarden appeared in "The Ringing World" several years ago, and it appears that efforts have been made to re-hang them with little success. The tenor (31½ cwt. in D) is the famous passing-bell of the former Newgate gaol. The bells were rehung in the old frame in 1905, and many peal boards adorn the ground-floor ringing chamber, having been brought from above. The eighth was rehung in 1932 and the Sanctus more recently, but owing to the precarious state of both tower and frame (the latter wedged to the walls), the bells remain unringable.

St. Stephen's, Coleman Street (8).—The bells were totally destroyed in 1940, and the site of the church has now been cleared and built over.

There are chimes of bells hung "dead" at the Royal Exchange (13, 33½ cwt., by Gillett and Johnston) and Houndsditch Warehouse Stores (10, 4½ cwt., not used).

SHINGLING — Author's family followed the craft for 200 years

The tall, slender spire of Wadhurst Church, in Sussex, has now a coat of brown cedar shingles instead of the grey oak shingles. To me, this is a very sad sight, for the craft of shingling church spires was in our family for over 200 years, ending when my father died, five years ago. To repair a spire in the winter months was unheard of, and the workers used to leave home in April, go from job to job and return home in September. During the winter all the spare time away from the wheelwright's shop was spent in cleaving out shingles and stocking up for the following summer.

Unlike the steeplejacks of today, only one ladder was used, one of 18 rungs, with the one next to the bottom taken out. In the four corners of this aperture short ropes were tied. One man then climbed up inside the spire, on the timbers and took out the trap door, some 15 feet from the top. A thin rope was let down and the ladder pulled up and manoeuvred so that it lay up the spire with the opening in the ladder over the opening in the spire. The four short ropes were then pulled in the four corners and fixed to the spire timbers. A man then crawled out through the hole, went up the ladder and fixed it to the top.

A rope collar was placed round the top of the spire, in which was hooked one or two sets of pulley blocks, 3 and 2, with a 90ft. rope. A man then fixed a swing seat, as used

today, got in it and took it down to the ground, where it was taken off and replaced with a big wooden cradle, in which a man could sit with plenty of room for his tools and a supply of nails and shingles. One could then easily pull oneself aloft and stop anywhere with a quick twist of the rope over the hook.

Some spires have a second trap door at the bottom and one could get in and out of the cradle without having to go to the top. The timber and the shingles being oak, one had to drill a hole for each nail, which was made of copper and would not corrode. One wonders today of the scrap value of the nails recovered from our spire.

I helped my father carry out repairs to the spire at Wadhurst in 1935, but the last major job was in 1897, when two sides were completely renewed, so most of the other shingles were 100 years old. Today's work in cedar is only guaranteed for 30 to 40 years. In 1897 the spire was 16 feet out of upright.

Over the years our family repaired most of the shingled spires in Sussex, Kent and Surrey, and one can write at length of the stories handed down: my grandfather, with his leg in an iron, having his after-dinner nap in the cradle, of the time he accidentally chopped the rope in half, and of the day father went into the bottom trap to shelter from a thunderstorm and the rain shrank the ropes, taking the cradle out of reach.

The annual general meeting of the Syston District was held at Syston on January 13th, attendance being 72. Ringing on the eight bells preceded the service, which was taken from the Guild's proposed service booklet. The Vicar, the Rev. C. Wall, officiated. Tea was taken in the new Church Hall.

Opening the business meeting, the chairman (Mr. J. M. Morley) welcomed the Guild president (Mrs. J. Staniforth) and visitors from Burbage, St. Margaret's, Leicester, Blaby and Branstons, Lincs. Mr. A. Mansfield, an honorary life and founder member of the Guild, was especially mentioned. Thanks were also given to the Rev. C. Wall, the organist (Mr. M. White) and the Syston ringers who arranged the tea.

The chairman reported that a great effort was being made to get the silent towers in the area going again. The main organiser of

this is Mr. B. S. Payne, and anyone wishing to give a hand is asked to get in touch with him. Mr. Morley also announced that he was retiring from office through business reasons.

The secretary (Mr. F. W. Faulkner) reported that in 1967 31 new members had been elected (10 adults, 21 juniors). Paid-up members totalled 107 (77 adults, 30 juniors), nine honorary life members and two over 65 years of age; total 149 members. The average attendance at monthly meetings was 49, evening practice meetings 25. An improvement was hoped for this year.

The Ringing Master reported a year of slow but steady improvement in the ringing at meetings. A pleasing feature was the many District members who rang their first peal. A District peal week was organised by Mr. B. S. Payne, with five successes out of seven attempts. "I think the first-pealers will agree that they learned more in three hours than in

23 in their own tower." The report contained thanks to the Barrow ringers, especially Messrs B. S. Payne, R. I. Kendrick and M. D. Barsby for their help given at the Quorn meeting. Lincford and Humberstone had better attendances at their meetings but he would like to see all towers represented at meetings and not just a few. Methods rung during the year in addition to Doubles and Minor included: Rev. Canterbury, Rev. St. Bartholomew, Winchendon, April Day: Triples: Grandsire, Plain Bob, Stedman; Major: Plain Bob, Kent T.B., Double Norwich, Bristol, Cambridge, Superlative, Rutland, Yorkshire.

Officers elected for 1968 were: Chairman, Miss J. H. Cox; secretary, Mr. F. W. Faulkner; committee, Mr. J. M. Morley, Mr. C. Mohbs; Ringing Master, Mr. M. D. Barsby. Thanks to Mr. J. M. Morley for his work as chairman were voiced by Mr. H. L. Wykes, seconded by Mr. B. S. Payne. F. W. F.

SYSTON DISTRICT REPORTS STEADY IMPROVEMENT

Letters to the Editor

CATERING FOR LATECOMERS

Dear Sir, — The members of the Peals Analysis Committee wish to dissociate themselves from the statement published in the issue of "The Ringing World" on January 19th (page 43), under the heading "Peal Records for 1967," paragraph 2, lines 3 and 4. We did not authorise this statement, which is contrary to the decision of the Central Council, recorded on page 22 of the Handbook.

In accordance with this, we shall continue to accept peals which appear in print up to the final issue of February, i.e. dated March 1st, 1968.—Yours faithfully

WALTER AYRE,
Convener of the
Peals Analysis Committee.

DOUBLES METHODS/VARIATIONS

Dear Sir,—I was very interested in the article by Mr. Dawson on Doubles Splicing ("Ringing World", 1968, page 24), particularly because I have been puzzled as to how one can arrange four variations of a Grandsire type method in one extent called S-SPx2. As I understand it, a variation consists of a plain lead, or leads, of one method used with the calls usual to another method. An example of this is Newborough, where one uses Grandsire plain leads with Grandsire bobs and plain leads of All Saints' as singles. To ring Newborough one must, therefore, ring at least one plain lead of Grandsire, with at least one Grandsire bob and one plain lead of All Saints'.

Recently a peal of Doubles methods/variations was rung in which it was claimed that four variations had been rung in an extent based on Grandsire. The calling used was S-SPx2, using the same type of bob throughout, but four different singles. As far as I can see this does not give four variations, for the following reasons:—

(1) Only three plain leads have been rung; a variation demands at least one plain lead. Unless a plain lead is rung one would not know, for example, whether one is ringing a variation of Grandsire or Wollaton.

(2) Grandsire and similar methods require two types of call to produce an extent, singles or bobs on their own being insufficient. Similarly, variations of such methods require two calls to produce an extent. This means that, to say that four variations have been rung in a 120 one must use four bobs. Only three exist in a S-SPx2 calling.

Mr. Dawson admits that these "particular type(s) of extent are of dubious value, as four singles are used with three plain leads" (page 24). I would go even further and say that it is impossible to ring more than three variations in any extent arranged on this plan. I should therefore suggest that, where it has been claimed that more than three variations have been rung, conductors should consider whether it would not be more honest to amend their peal reports, especially where such peals are claimed as records of some sort or another.

I hope, in the next few weeks, to publish details of a proposed addition to Central Council rules to cater for Doubles variations. Unfortunately it is obvious that even the simplest of variations must be guided by some rules, otherwise this branch of ringing will become a complete and utter farce. — Yours sincerely,

COLIN A. LEWIS
University College Dublin.

CALL CHANGE RINGERS

Dear Sir,—Mr. Jewell's letter (January 19th) prompts me to join Mr. Beavis in his fight to bring to the surface the unfriendly attitude shown by some bands to visitors.

In my 25 years' experience as a ringer I have only once met with a refusal to be allowed to ring and this was at the only tower in Plymouth I had not rung at—St. Budeaux, a tower affiliated to the Devon Association.

In all fairness, I had been warned that they did not encourage visitors, but as I was passing on their Tuesday practice night I thought a few rounds would suffice, and with my family entered the ground-floor tower.

The changes were obviously not going to plan, as they made two fresh starts. My family were getting impatient after 30 minutes, but I made the observation in a loud voice "They are coming round now" on two occasions when changes 21345 and 12354 came up. After the third crunch they lowered.

I was told by a friend with over 2,000 towers that what I should have done was to charge in and taken the rope away from one of them, pushing him aside in the process. Instead we walked out of the church with them in silence.

Fortunately this is an isolated case. I have rung with several call change bands in Devon and Cornwall, mainly on eight, and can emphasise all Mr. Jewell has said. At St. Mary's, Torquay, they have better striking than the majority of change ringing eight-bell bands, and you have to concentrate as much. I rang with this band several times, also at Plympton St. Andrew's, Tavistock, etc.—Yours sincerely,

GEOFFREY DODD.

Highclere, Hants.

WESTMINSTER ABBEY RINGING

Dear Sir,—I fully agree with the sentiments made by the six members of the ringing fraternity in "The Ringing World" of January 26th.

I would be interested to know if the Abbey ringers ring in other towers; if they do, why not publish their names in "The Ringing World" and bar them from ringing in other towers.—Yours faithfully, R. H. ADDIS.
Cardiff.

THE YORKSHIRE ASSOCIATION

THE 87 members at the Association's Goole meeting on January 20th will remember for a long time the excellence of Mrs. J. J. Taylor's tea and the welcome to the town by the Mayor, Mr. T. E. Addy, who, with his wife, joined members at both their service (with handbells during the 150th Psalm) and tea. Canon Hudson, Vicar of Goole since last April, and his wife were also welcome guests.

At the business meeting ten new members were elected: Ian Danby (Sutton-on-Hull), Jane Lawrence and Dr. and Mrs. Baker (Chapel Allerton), Michael Nunn (Rothwell), Margaret Hunt (Wakefield), Timothy Samuelson (Pudsey), Maxine Johnson (Cottingham), Bryan Seymour and Christopher Milner (Huntington).

The meeting voted unanimously in favour of the new rule about officers, and the following nominations were received: Peal secretary, Dr. T. D. Spencer; report editor, Mr. R. Ducker; composition secretary, Mr. W. E. Critchley; general secretary, Mr. W. F. Moreton.

In addition to the octave at Goole, those at Thorne and Howden were much enjoyed, as well as the fine sixes at Carlton and North Cave.

WESTMINSTER ABBEY

Dear Sir,—Having read the recent correspondence about ringing at Westminster Abbey, I would like to make one or two comments.

Several of the writers express their objections to a closed shop attitude. While not passing judgment on this, I would ask what right these people feel they have to be allowed to ring there. The organ is not played for all services, but we do not hear about anguished organists offering their services to the Abbey, or about visiting choirs wanting to sing there on Saturdays.

Another recent correspondent questioned the function of service ringing in general. People going to worship at the Abbey know about the services and do not need to be "called," having travelled some distance to be there. Under the present system, even if it has its faults, one knows at least that if the bells are ringing there is a jolly good reason for their doing so, and not just once again for ringers' pleasure.

The six people from the Oxford Diocesan Guild suggest that if the resident band is incapable of Sunday ringing, then other bands should be allowed to ring. As one who has rung there (as a visitor, not a member of the band) I can say that the bells are not at all easy to ring, nor very rewarding, and I am sure that if Sunday ringing were "open," there would be very few ringers who would make the effort to climb the long staircase for such average bells, once the initial novelty wore off. If these people are genuinely feeling philanthropic towards London ringing, their services would be more than welcome on another heavy eight, at St Botolph's, Aldgate, on Sundays.

Incidentally, my own opinion is that it should be easier for visitors to have a ring, without general "open" ringing, but I do not question the right for the Abbey ringers and authorities to make their own rules and run the tower in the way they see fit. — Yours faithfully,

R. DENNIS.

Harlow, Essex.

FORMER VERGER'S VIEWS

Dear Sir,—I have read with interest the letters re Westminster Abbey ringing, and as I was a vergier there for five years, taking parties round. I claim to know just a little of what goes on.

Westminster Abbey is a Royal Peculiar and all the time I worked there it seemed very peculiar to me. The behaviour of people was simply appalling. Smoking took place if the vergiers were not very careful, and it has even been known for visitors to use monuments as toilets. Now one does not do this sort of thing in a church so it will give you ringers some idea of what the visitor really classes Westminster Abbey as (a museum). All the time I was there I was trying to make people realise it was a church, and one way to do this is to have the bells rung for services. At the present moment the vergiers use hammers downstairs outside the belfry door; only if a special service is being held or a special ringing day crops up are the bells rung, and then after the service. So let us get the bells rung for services if at all possible; that will also give the visitor outside some idea of what Westminster Abbey was built for. And inside—well, let us get the thrille swinging so they can smell it is a church.—Yours faithfully,

FRANK HOPGOOD.

Hampton, Middlesex.

Record Peal Regulations — Some Interpretation Wanted

By Brian J. Woodruffe

Dear Sir,—I write in reply to Alan Ainsworth's letter in "The Ringing World" (page 19).

(1) I apologise to Roddy Pipe for presuming that, as no conductor was stated in the notice Alan would be the conductor of the 11,872 Glasgow Surprise Major.

(2) Now, Alan, I am not sure that the Central Council regulations on record lengths are as straightforward as you like to make out. Let me explain: Firstly, consider sub-section (f), (Central Council Handbook, page 19), which states: "That in the case of a peal rung to surpass previous peals of 6,720 changes and upwards compliance with these further conditions is necessary: . . ."

This statement can be interpreted two ways, one of which is: "That in the case of a peal, rung to surpass previous peals, of 6,720 changes and upwards . . ." (my commas for emphasis). This means that any attempt at a record peal in which over 6,720 changes are to be rung, must comply with the rules.

The other interpretation is: "That in the case of a peal, rung to surpass previous peals of 6,720 changes and upwards, compliance . . ." This means that the rules only apply to attempts at records, which already stand at or in excess of 6,720 changes. This is your interpretation, Alan, but think what it implies—a conductor would have to give notice of an attempt for 6,728 Little Bob Major (present record 6,720) but not for 40,680 London Surprise Royal (5,400 is the present record). Extreme examples, yes, but surely this is not what the Central Council had in mind when the rules were drawn up and worded as they are now?

Since this is Alan's interpretation of the rules, he is perfectly correct in what he says in para. (2), but it does seem to suggest that, as notice was given for the 11,872 Glasgow, there is an element of doubt in his mind or that he feels the rules need altering to include all record attempts. The idea of giving notice for record attempts is obviously that other ringers may visit the place of the attempt to listen and to check that the peal is rung correctly. And, of course, publicity, not only to ringers but to the general public as well, is an important point to take account of, as Alan rightly states.

(3) Whether the composition is to be published before or after the record attempt is another debatable point. Certainly the rules do not say that the composition must be published with the notice but they do hint or suggest that this is so. May I quote the whole of sub-section (f) part (iii), not just part of it as in Simon Humphrey's letter:

"That the composition of the proposed peal shall be submitted to at least one competent person, other than the composer, for proof, and the figures shall be published in 'The Ringing World.' These figures shall be strictly adhered to unless it becomes necessary for the conductor to call the bells round before the full length is completed, owing to an unforeseen contingency. Any alteration made in the published figures for this purpose shall be published with the report and also submitted before publication to those who proved the composition."

The last sentence of this paragraph implies one thing—that the figures have been published before the attempt takes place, and that if the figures are altered they are then published again with the peal report. No time period is stipulated as to when the figures should be published but, of course, the most rational time is with the notice of the attempt, i.e. at least seven days before.

Alan states that if the composition is published before, another band could ring it previous to the notified attempt, or afterwards

for that matter, if the notified attempt failed. But if the record peal were rung by an unscrupulous band before the official attempt, it would not be recognised by the Central Council and therefore would not be recorded and should not get in "The Ringing World" peal columns if the Editor is on the watch for this sort of behaviour. The refusal to publish such peals is the only way to discard them and to uphold the rules of the Central Council. However, I cannot agree with Alan over the point that another band can use the composition if the official attempt failed. This introduces a spirit of competition into record peal ringing and surely this is not a bad thing for the Exercise? Furthermore, how can the composer be sure that the composition is the longest possible?—there is the chance that a different plan will produce a longer peal. I believe that the Central Council is right in suggesting that the composition be published before the attempt, and this leads me on to the next point.

(4) Part (iv), sub-section (f) states:

"That all ringing shall be heard by a competent, unbiased person who may give, if he thinks fit, and the performers so desire, a written certificate that the peal has been rung. Any objections to the performance must be made in writing to the conductor and Association and umpire immediately the ringing has finished, and any controversy arising shall be referred to the Central Council whose decision on the matter shall be final."

Two queries arise out of this paragraph:

(i) Is the "competent, unbiased person" also the "umpire," and who appoints these—the band or the Central Council? If the band appoints the umpire, he is therefore not unbiased but is associated with the attempt and, very often, with the spirit of it. If the Central Council were to appoint the umpire, they can then also judge his competence to umpire the attempt. Too often, the appointing of an umpire is a case of finding someone who is prepared to give up his time and not necessarily someone who is competent to judge the peal.

(ii) My second query is over the "objections." Objections can arise from the standard of striking and by the composition. If the composition has not been published then the conductor is safeguarding himself against incorrect calls, and if the umpire is not competent, who is to know if a miscall is made? An acute listener outside the tower, if he has the composition, can make an independent check, and then he is in the position to object "immediately the ringing has finished" if he believes the peal has not been rung according to the published composition.

(5) I submit the above observations and comments as "food for thought" and, I hope, discussion. As with my earlier letter, there is no intention of "attacking" or "smeared" any conductor or band—I am just asking for points to be clarified.

It seems there are three points to be discussed:

(i) Whether the composition is to be published before the attempt or not.

(ii) Whether notice has to be given for all record peals of 6,720 changes and over.

(iii) Who should appoint the competent, unbiased person/umpire, and who is to assess his ability to check the ringing.

May I add two more for good measure:

(iv) What is the significance of 6,720 changes; why not 5,376 or 10,000?

(v) Should similar rules apply to normal length record peals, such as Spliced Surprise or multi-methods peals in which a record number of methods is to be rung?

URGE FOR NEW DISTRICT IN ESSEX

The annual general meeting of the South West District was held at Barking on January 13th. The Master, Mr. D. E. Cobb, presided and about 75 members attended.

The meeting was opened with a vote of thanks to the Rev. J. W. Roxburgh, also to the Barking ringers and the ladies, who had provided the tea, for their hospitality. This was given by Dr. J. Armstrong.

The Master welcomed the visitors, who included Mr. Frank Lufkin and Mr. P. Saltmarsh.

The deaths were announced of Mr. B. Hines, ringing member of Brentwood, and Canon Stanley, honorary member of Prittlewell. Members stood in silent tribute.

After the secretary and treasurer's annual reports had been adopted, Mr. F. B. Lufkin took the chair with the consent of the meeting and a discussion took place on the proposition by Mr. D. E. Cobb, seconded by Mr. M. Hallett, to split the South West District. The following amendment to the Association's Rule VII was approved unanimously:

"The Districts of the Association shall be six: Northern, North Eastern, North Western, Southern, South Eastern and South Western."

The proposal now goes forward to the annual meeting of the Association to be held at Chelmsford.

Mr. Frank Lufkin remained in the chair for the election of District Master, and Mr. D. E. Cobb was re-elected unanimously.

Mr. M. Hallett announced his intention not to stand for re-election as secretary. Two candidates were proposed and G. Eve was elected by a show of hands. Six members were proposed as committee representatives, a ballot was taken, and Mr. M. Hallett and Mr. P. Bedford were elected. Seven new members were elected to join the Association.

UNIVERSITY OF WALES SOCIETY'S FIRST DINNER

The first formal dinner of the University of Wales Society of Change Ringers was held at the Queen's Hotel, Cardiff, on January 20th. Five towers were open during the course of the day and ringing reached a moderately high standard. Those who joined us for ringing came from such diverse places as Bristol and Birmingham, which could be used as evidence in support of the view that many people would like more opportunities to visit the many good rings of bells in South Wales.

Thirty people attended the dinner, including the guest speaker, Canon K. W. H. Felstead, and his wife. Unfortunately I have to say that co-operation from within the Society was very poor, making organisation more arduous than it need have been. Members who actually attended the dinner comprised four from each of University College, Swansea, and University College, Cardiff (a two-thirds attendance for each), two ex-members of University College, Swansea, and one ex-member from St. David's College, Lampeter. It is regrettable that of the 24 members from University College, Aberystwyth, not one was prepared to support our new venture. This unfortunately meant that we made a financial loss, which we hope will be offset by donations from those members of the Society who did not support the dinner.

Despite the poor representation of Society members the dinner was a great success socially and this in itself is, I feel, sufficient to inspire the Society to continue to hold the event annually. After an excellent meal Canon Felstead made a very interesting and informative speech, concluding with a toast to the Society. The Master, Mr. John F. I. Turney, responded with brevity and subtle wit and concluded his speech with a toast to the visitors.

Sincere thanks are due to all incumbents who allowed us the use of their bells during the day and to the manager and staff of the Queen's Hotel who provided us with an excellent meal and superb facilities. S.H.

OBITUARY

MR. G. H. HUMPHRIES

It was with great regret that the ringers of Croydon Parish Church learned of the death of George Herbert Humphries ("Bert") on January 17th, at the age of 64. Bert had suffered a very short illness and nobody in the tower realised how ill he was.

He joined the Ancient Society of Croydon Parish Church Bellringers as a probationary member on February 2nd, 1922, although he had been ringing for some time at the Parish Church before that. Just over one year later, on February 6th, 1923, he became a Stated Ringer of the Society. He had, therefore, served Croydon Parish Church as a ringer for nearly 50 years, a record of which he could well be proud. Bert was a very capable 12-bell ringer and was a great asset to the Sunday service band. Although he did not aspire to some of the more complex Surprise methods, his part in the Cinques band at Croydon was very valuable and he will be greatly missed.

The last occasion he rang was on Sunday, December 3rd, when he rang the fifth to a quarter peal of Stedman Cinques. As a tribute to his memory, ten of his fellow ringers, including his son and daughter-in-law, rang a half-muffled quarter peal of Grandsire Caters on January 23rd. Those taking part were: R. Davies 1, E. W. Razzell 2, Mrs. P. Humphries 3, I. M. Parry 4, N. G. T. Steere 5, F. E. Mitchell 6, N. S. Brown 7, K. Taber 8, R. C. Stevens 9, P. Humphries 10.

Croydon Parish Church has not only lost a ringer but a friend. Bert was ever a cheerful person who could always find room for a smile when things did not quite go as they should. R. C. S.

MR. W. THORNLEY, SEN.

I only recently learned of the passing of a very old ringing friend in the person of Mr. William Thornley, of Stapleford, Notts, at the age of 76 years. Bill Thornley had been a ringer for over 60 years and gave me much help and encouragement in ringing in my young days. He called my first peal—5,040 Minor in three methods on the then newly augmented bells of Stapleford Parish Church in October, 1932. This peal was Bill's first as conductor and I am saddened to think I was unable to attend his funeral to pay my respects to a man I had known all my life.

Bill rang at Sandiacre for many years and was a member of the fine Surprise Minor company at that time, ringing a new method most Sunday evenings with almost perfect striking. He was a splendid treble man at raising and lowering in peal, and to hear Sandiacre bells being lowered in peal with Bill on the treble and taking 10 to 12 minutes was something I shall never forget.

A disagreement with the then Vicar of Sandiacre caused the break-up of that band and Bill joined the Stapleford Parish Church company, where he eventually became captain, remaining there until the end.

Bill served in the Army in the 1914-18 war and was gassed and wounded badly, but he kept up his ringing despite poor health at times but, as he told me, "I did come back." He rang a good many peals with the late Mr. E. C. Gobey, of Ilkeston, with whom he was very friendly, but I do not know exactly how many—I should think about 200. A very quiet and likeable man, he was never aggressive when things went wrong in the belfry. May he rest in peace.

G. H. CLIFT.

Up and Coming Youngsters — No. 38

KEITH WILLIAM SCUDAMORE

(Gloucester and Bristol Diocesan Association)

It is a great pleasure to include in this series a son who is following his father's hobby and art with such enthusiasm.

Keith William Scudamore, who was born on October 5th, 1955, is the son of Police-Sergeant William F. Scudamore, Ringing Master of the Gloucester and Bristol Association and steeple-keeper of Cirencester Parish Church. When

his father was stationed at Lydney, in the Forest of Dean, Keith first learned to handle a bell at the Parish Church. At the time he was only six.

When his parents moved to Cirencester, in 1965, Keith immediately joined the Cirencester company, ringing at both the Parish Church (12) and Watermoor (8). He rapidly took to change ringing on all numbers of bells and can be found on any Sunday joining the more experienced ringers in methods up to Stedman Caters (his favourite). More recently he has ventured into the field of Surprise.

Keith's first peal (Grandsire Doubles) was rung at North Cerney when he was only ten years of age. It was a happy family occasion, as his grandfather (Ralph E. Scudamore) and father both took part. And now we have reported the conducting of his first peal—Grandsire Doubles—at North Cerney on December 28th last year, some two months after his 12th birthday. To avoid any nervousness or excuses he was only told of the peal 24 hours before it took place. In his four peals there is one of seven Doubles methods, the others being Grandsire.

At present he attends the Cirencester School, one of the latest to join Gloucestershire's Comprehensive Education System, previous to which he was a pupil at the Rebecca Powell C. of E. School at Cirencester, which had strong associations with the Parish Church.

A regular member of the Cirencester Branch of the Gloucester and Bristol Association he often accompanies his father on Association business in order to be able to make additions to his list of towers (which now total about 300). His most pleasing experience was being able to ring Stedman Caters at Lincoln Cathedral in September, 1967.

Apart from ringing, his hobbies include the Scout movement and electronics.

MR. L. S. HALLETT

The death took place recently of Mr. Leslie Samuel Hallett, a ringer at Worle and Weston-super-Mare, aged 66.

Educated at the College and Brymelyn School, he joined the R.A.F. as a photographer in 1920. During the war he was twice mentioned in dispatches and five years ago he retired as the Chief Training Officer of the R.A.F. School of Photography, Cosford. He did a great service to ringing while stationed at Stratford-upon-Avon and also founded a section of the Army Cadet Force. His widow and two daughters are bereaved.

The funeral service, conducted by the Vicar of Worle, the Rev. W. C. Foster, was held at Weston Crematorium. On January 27th a quarter peal of Doubles was rung half-muffled at Worle to his memory, conducted by Mr. George Prescott.

MR. LESLIE WARNER

Mr. H. C. Arthur writes that the ringers of St. Nicholas', Cranleigh, were shocked to hear of the passing of their captain and secretary, suddenly, on January 10th. He had been a ringer at Cranleigh for 53 years.

"Mr. Warner's great dedication to the service ringing of his church enabled him to carry on in difficult times, and so set an example for us to follow. His good work was well done to the end."

Gratefully Acknowledged

The Editorial Committee acknowledges with gratitude the following donations towards the cost of producing "The Ringing World":—

BELFRY GOSSIP

DONATED BY
JOHN TAYLOR & CO.,
LOUGHBOROUGH,
LEICESTERSHIRE

WESTMINSTER ABBEY RINGING

A useful book explaining ringing procedure at Westminster Abbey and also a valuable historical background has been written by Harold N. Pistow, entitled "A Short History of the Bells and Belfries of Westminster Abbey" (price 2s., plus 3d. postage). It is obtainable from the Abbey Bookshop, Westminster Abbey, S.W.1.

"The Foundation known as the Brethren of the Guild of Westminster disappeared down the ages. It was reborn, however, in modernised form by Dean Ryle, and the work of the belfry to-day is carried on by a superintendent, a company of eight ringers (the principals) and nine supernumeraries. The official origin of the band was May 14th, 1921, when the first eight members were admitted to their office by the Dean at a ceremony in St. Faith's Chapel. As changes occur, each newly-elected principal is so admitted. The ringers are drawn from the Ancient Society of College Youths, which was founded in the year 1637."

"UNION SCHOLARS"

The leading article in "Irish Bell News" of January 20th issue is headed "Union Scholars." This is Editor F. E. Dukes' conclusion:

"What are bellringers trying to prove? We believe it is that there is no barrier between North and South, Roman Catholic and Reformers, as far as bellringing is concerned. We are sure that their love of bells and bellringing—no matter who is in the band, no matter what church—is for the good of the Exercise and, above all, for the greater Glory of God.

"May we pray therefore—that whosoever the bells shall sound, they may kindle holy thoughts and give an increase of Christian faith and devotion in whosoever shall hear them."

This is a good issue of "Irish Bell News." Minimum annual subscription 3s., from the Editor, Meadow Cottage, Whitecross, Drogheda, Co. Louth.

A FAREWELL TO LEN STILWELL

The farewell peal for Mr. Len Stilwell preparatory to his move from Sussex to Windsor was rung at Pulborough on January 27th in the tower where he rang his first peal in 1904. This was Grandsire Triples, to which Len rang the treble. Later he was in charge of the ringing here for some time.

Len will be pleased to know that young Dale Barton, of Pulborough, rang very well in his first peal. It was unfortunate that Mr. R. Wake, the Western Divisional secretary, who arranged the peal and intended to call it, was prevented from doing so by indisposition. The peal was conducted by Mr. Raymond P. Wood, with whom Mr. Stilwell had been associated for many years as a member of St. Botolph's, Heene, Worthing.

ST. STEPHEN'S, CANTERBURY

The band of ringers at St. Stephen's Church, Canterbury, are struggling to raise funds to rehang their famous ring of eight and recast the sixth. Piles of newspapers have been disposed of for salvage. (Leave piles in the church porch, marked "For Bell Fund.") Recently some of the local band put the notoriously difficult tenor bell on ball bearings, making it by far the easiest bell in the tower to ring. More power to their elbows!

SILENT PEAL AT BRISTOL

"A magnificent achievement. I understand that not a word was spoken throughout the performance." In these words Mr. F. Sharpe described the University of Bristol Society's silent and non-conducted peal of Grandsire Caters. He was speaking at the Society's 25th anniversary dinner later on the same day, January 27th.

The band had met at St. Stephen's at noon. Albert Tyler, the umpire, told the band what was expected of them and that the peal would be stopped in the event of bad striking or any signalled or spoken command. After the bells had been pulled off in rounds, Albert called "Go" to send the bells into the changes of one of his own compositions. Three hours and six minutes later the bells ran perfectly into rounds again and he was able to call "Stand." The standard of striking was rated highly by all who heard the peal and the very few trips were very minor faults.

The venue, composition and umpire could not have been more appropriate for the occasion. The entire band had gained their early Grandsire Caters ringing and conducting experience under Albert at St. Stephen's, and he could justifiably share their pride at the achievement. They would like to thank him for all his help and advice, and especially for sitting in the tower for three hours watching them!

TRANSFORMATION AT WINCHCOMBE

Winchcombe (Gloucestershire) bells have been notoriously difficult and unrewarding musically.

In conjunction with extensive repairs to the lofty tower Messrs Taylor, of Loughborough, have tuned and installed them in a steel frame, effecting a transformation in both tone and "go." There is still a long draught but the rope guides are now a little lower, with beneficial results.

As no official opening had been planned, the Cheltenham Branch of the Gloucester and Bristol Association obtained permission for a meeting on January 24th. Branch and Association officers rang the first touch, an excellent 360 Plain Bob: Mrs. M. Wratten (Association peal secretary) 1, Miss M. Bliss (Association chairman) 2, W. A. Farmer (Branch chairman) 3, M. Maggs (Branch secretary) 4, W. F. Scudamore (Association Ringing Master) (cond.) 5, C. A. Wratten (Association treasurer) 6.

More than 50 other ringers from neighbouring towers were present to try their hand, there being especial interest as the Association had contributed £75 towards the cost of rehangings. Sound conditions are ideal in the tower, but outside are such as to preclude very much ringing until the sound control is completed.

Winchcombe is a small Cotswold town attractively set in a valley east of Cheltenham. It is of great antiquity, having been a Royal borough in Saxon times. Its prosperity continued into the Middle Ages, as Winchcombe Abbey was immensely wealthy, and Hales Abbey is only a mile or so away.

The church has had bells from the earliest times, as the Abbot complained to the Pope in the early 16th century that they were rung to the disturbance of the monks at their devotions. One wonders if Christian forbearance precluded the monks from retaliation, as the Abbey had ten bells, which were sold at the Dissolution.

W. A. F.

TINTAGEL REUNION

The reunion for the Bishop's West Country tour "flock" was held in London on January 6th and was organised by the writer. We were pleased that Gillian Sims was once again able to make the journey from Hereford, and also pleased to welcome the Rev. Michael Hart, Messrs. Jeremy Pratt and Michael Burn and Miss Rosamund Rawlings to the "company." (Apologies to Messrs. Rogers and Meyer!)

The day started with ringing of Stedman and Yorkshire on the pleasant bells at St. Mary's, Lambeth. Four of our band being absent, ill with flu, we were unable to complete much at Southwark Cathedral; however, reasonable touches of Stedman Caters and London Major on the back eight were successful.

After lunch the 16 cwt. six at Harmonds-worth sounded very well but unfortunately were spoilt by being odd-struck and difficult to keep up. However, the delightful light octave at Harlington tapped round very well and good touches of Cambridge and Stedman were rung. The six in Cranford Park went equally well and touches of London and Durham were enjoyed.

A course of Bristol Major at St. Paul's, Hounslow, was probably the first for several years, and Mr. Robin Collis is to be congratulated on the restoration work he has carried out on these bells, which had suffered about five years silence. Pleasant to listen to outside, they are unfortunately very difficult to hear inside. Ringing around the font on the pleasant bells at Chiswick preceded the final tower of the day, All Saints', Fulham, where the very pleasant Rudhall ten were much enjoyed. A very enjoyable evening was spent at 14, Worples Avenue, and we were all very grateful to Tom and Deborah for inviting us home once again and arranging the very welcome refreshments.

M. J. U.

EASTRY, KENT

The heavy ring of five bells (tenor 18 cwt.) at the Church of St. Mary the Virgin, Eastry, near Sandwich, Kent, has been refitted and quarter-turned by Messrs. John Taylor and Co. of Loughborough. This church is also the possessor of a rare inscribed mediæval Sanctus bell, recently retrieved from the local village school and weighing about one cwt. Inscribed "Ave Maria Gracia" it is kept as a mounted demonstration model in the ringing room.

DEVON RINGERS' TOUR

A number of members of the Devon Guild of Ringers held their first tour of the year on January 27th, when the South Hams and Dartmouth area was the venue. Mr. A. L. Bennett was again in charge and those accompanying him were Messrs. D. R. Bould, N. Mallett, G. E. Mudge, J. C. Mitchelmore, E. J. Cann, P. Perkins, J. Steer, S. Pearse, D. Pierce and A. Frost.

The towers were all six-bell ones, these being South Pool, where a rope snapped during the rise; Chivelstone; East Portle-mouth, the best of the day, and where the Rector put in an appearance; Stokenham, with its long draught; St. Petrox, Dartmouth, a sweet six; St. Clement's, Dartmouth; and Dittisham, a very nice six. The ringing was very good throughout the day. The lunch interval was spent at Stokenham, with tea at Dartmouth.

Bailey (cond.) 7, P. A. Bourne 8. Rung as a compliment to Elizabeth Slater and Warwick Bailey, married on December 16th in Perth, W. Australia.

SUSSEX COUNTY ASSOCIATION

The Appeal of Bosham

One of the largest gatherings of recent years at a practice meeting assembled at Felpham on January 13th. This meeting was due to be held on December 9th but had to be cancelled at short notice because of bad weather: it was made possible to rearrange so quickly because the bells at Washington, where the January meeting should have been held, were out of action.

Ringing took place on the recently rehung five at Pagham and a number of ringers made full use of the first opportunity to ring on this pleasant ring. The bells have been hung dead for as long as anyone can remember, and it is good to know that there is now a local band ringing regularly for Sunday services and practice. The four bells at Aldwick were also made available by the Vicar and full use was made of them for an hour's ringing. There is a keen local band here and it is hoped that these bells will be augmented in the near future.

Over 50 ringers and friends sat down to tea at Felpham Church Hall, served by Felpham lady ringers and friends. The Rev. D. Manners (Vicar) joined the company at tea.

The Divisional secretary took the opportunity to give the best wishes of all the members to Mr. L. Stilwell on his removal to Windsor after his many years of outstanding service to ringing in Sussex. Len Stilwell is respected and esteemed by all who know him, not only in Sussex but wherever ringing takes place. His cheerfulness and good nature will be missed in this area, as many ringers in the district have Leonard to thank for arranging and conducting their first peal. We hope he will find the opportunity to visit this area quite often, where he will always be welcome among friends.

After tea the members attended Evensong at Felpham Parish Church conducted by the Vicar. Ringing took place at Felpham in the evening, catering for all from rounds to London Surprise Minor.

WEST QUANTOXHEAD, SOM.—On Jan. 16th, 1,260 Grandsire Doubles: Dr. W. N. Kingsbury 1, B. Denner 2, W. J. Smith (cond.) 3, D. Ploorman (first quarter) 4, L. Lyddon 5.

WESTON-UNDER-PENYARD, HEREFORDS.—On Jan. 12th, 1,260 Grandsire Doubles: J. J. Webb 1, Ann Butcher 2, S. Willett 3, R. A. Brewer 4, R. I. Brewer (cond.) 5, W. Robbins 6. Rung half-muffled in memorial Mrs. F. J. Bevan.

WILTON, TAMMONT, SOM.—On Jan. 15th, 1,260 Grandsire Doubles: D. L. Adams (first quarter) 1, W. H. Farr 2, A. F. Arscott 3, R. M. B. Cullen 4, F. Avery 5, R. F. Arscott (cond.) 6. For Christian Unity Week.

WINSOMBE, SOM.—On Dec. 6th, 1,280 Dublin Surprise Major: Gillian M. Brearley 1, E. T. Lee 2, Diana M. Chapman 3, P. J. England 4, S. Brown 5, J. Brain 6, A. E. Cox 7, P. Brindle (cond.) 8. First in all.

WOOD GREEN, LONDON.—On Jan. 18th, 1,260 Plain Bob Minor: D. F. Willcocks 1, R. Amos 2, Mrs. A. Medley 3, M. Medley 4, J. Weaver 5, L. G. Gates (cond.) 6. For Christian Unity service.

YATTON, SOM.—On Jan. 19th, 1,280 Lincolnshire Surprise Major: P. J. England 1, M. G. Bartlett 2, Miss V. Hallett 3, J. Sheppard 4, R. W. Rice 5, W. S. Rice 6, G. Hedden 7, E. T. Skipsey (cond.) 8. First in method 5, 6, 7.

LONDON UNIVERSITY OUTING

London University Society had a very enjoyable day outing to Bedfordshire on January 20th. The towers visited in the morning were St. Mary's, Luton, and Dunstable Priory, when the ringing included Grandsire Caters, Plain Bob Royal and Yorkshire Surprise Major. After lunch the party moved on to ring at Woburn Maulden and Henlow. The ringing at these three towers ranged from rounds and Grandsire Doubles to London and Lincolnshire Surprise Major.

Dusk had fallen when the party left Henlow, and after an excellent tea, thoughtfully provided by one of the members, the band felt sufficiently refreshed to ring Stedman Doubles, Norwich and Kent Treble Bob Minor at Stotfold. The last tower of the day was St. Nicholas' Norton, where rounds, Stedman Triples, Plain Bob and Rutland Surprise Major were rung on the light eight.

The band would like to thank all those incumbents, ringers and others who helped to make the day: the success it was. L. C. H.

THE LADIES' GUILD

For the annual general meeting of the Ladies' Guild (South Wales District) at Brecon on January 27th. Mr. and Mrs. P. Rogers travelled 80 miles from Pembroke to be present and there were friends from Lydney in the east.

Ringing during the afternoon was on the sweet-sounding six at St. David's, Llanfaes. The Dean conducted the service in St. Mary's, Brecon and the Misses Imogen Hollingdale and Higgins prepared tea.

In the absence of Mrs. Coles, Miss Hollingdale acted as vice-president. Mrs. Stella Clench is the new vice-president and other elections were: Mrs. Jacqueline King, secretary-treasurer; Mesdames E. Hughes, A. Bruten, C. Lucas and P. Llewellyn and Misses H. Way and D. Atwell, committee. New members elected were the Misses Vesta Rosen (Pembroke), Mary Davies and Rosemary Trew (Swansea).

A favourable report was given for 1967 with an increase in membership. On December 27th the "Western Mail" had published an article about the Guild and its activities in "Feminine Focus."

It was decided to try to support the joint meeting with the Western District in Bristol on June 8th and to hold a further meeting at Mitcheldean on September 28th if possible.

The band who rang the peal at All Saints', Whitstable, as a compliment to the 20 years' ministry of Canon Waynforth are most grateful for the hospitality he extended to them after the peal. During his incumbency the bells have been rung every Sunday, excepting for two in 1962, when the clappers were at Loughborough being renovated.

NOTICES

NEW SCALE OF CHARGES

Minimum charge 5s. for 30 words, afterwards additional charge 2d. per word. For meetings only, each additional insertion half-charge.

Display in box 7s. 6d. per inch (7 lines) single column for each insertion. Per page, ordinary £10, cover £20, half-page £5 10s., half-page cover £10. Reduction for series on application.

ST. HILARY, CORNWALL

The bells of St. Hilary, near Marazion, Cornwall, are ringing again, as will be noted from the quarter peal columns. Recently Mr. J. M. Tunstall-Behrens, churchwarden, was contacted as it was known that the provision of several ropes and a little general attention was all that was needed. With the help of Mr. F. M. Bowers, of Lelant, and the gift of ropes from Paul, the bells were soon ringing. This at once created local interest and there is now a band again at St. Hilary made up of several old ringers and some learners. Both before and after the recent quarter peal the visitors helped the local band and a very pleasant evening was spent.

This ring is unique in that the bells are hung in three tiers of two. This was done in 1898 by Mr. Harry Stokes, when the three old bells were recast and three new ones added. The tenor weighs 5 cwt. and 18 lbs., note B. At present there is no Vicar at St. Hilary. There is ringing on Sunday mornings and a practice on Thursday, but as most ringers are occupied in agriculture the practice will probably be discontinued in the summer. Visiting bands wishing to ring here should write to Mr. J. M. Tunstall-Behrens, Trenails, Rosudgeon, Penzance, Cornwall. Telephone: Germoe 3265.

SUFFOLK GUILD

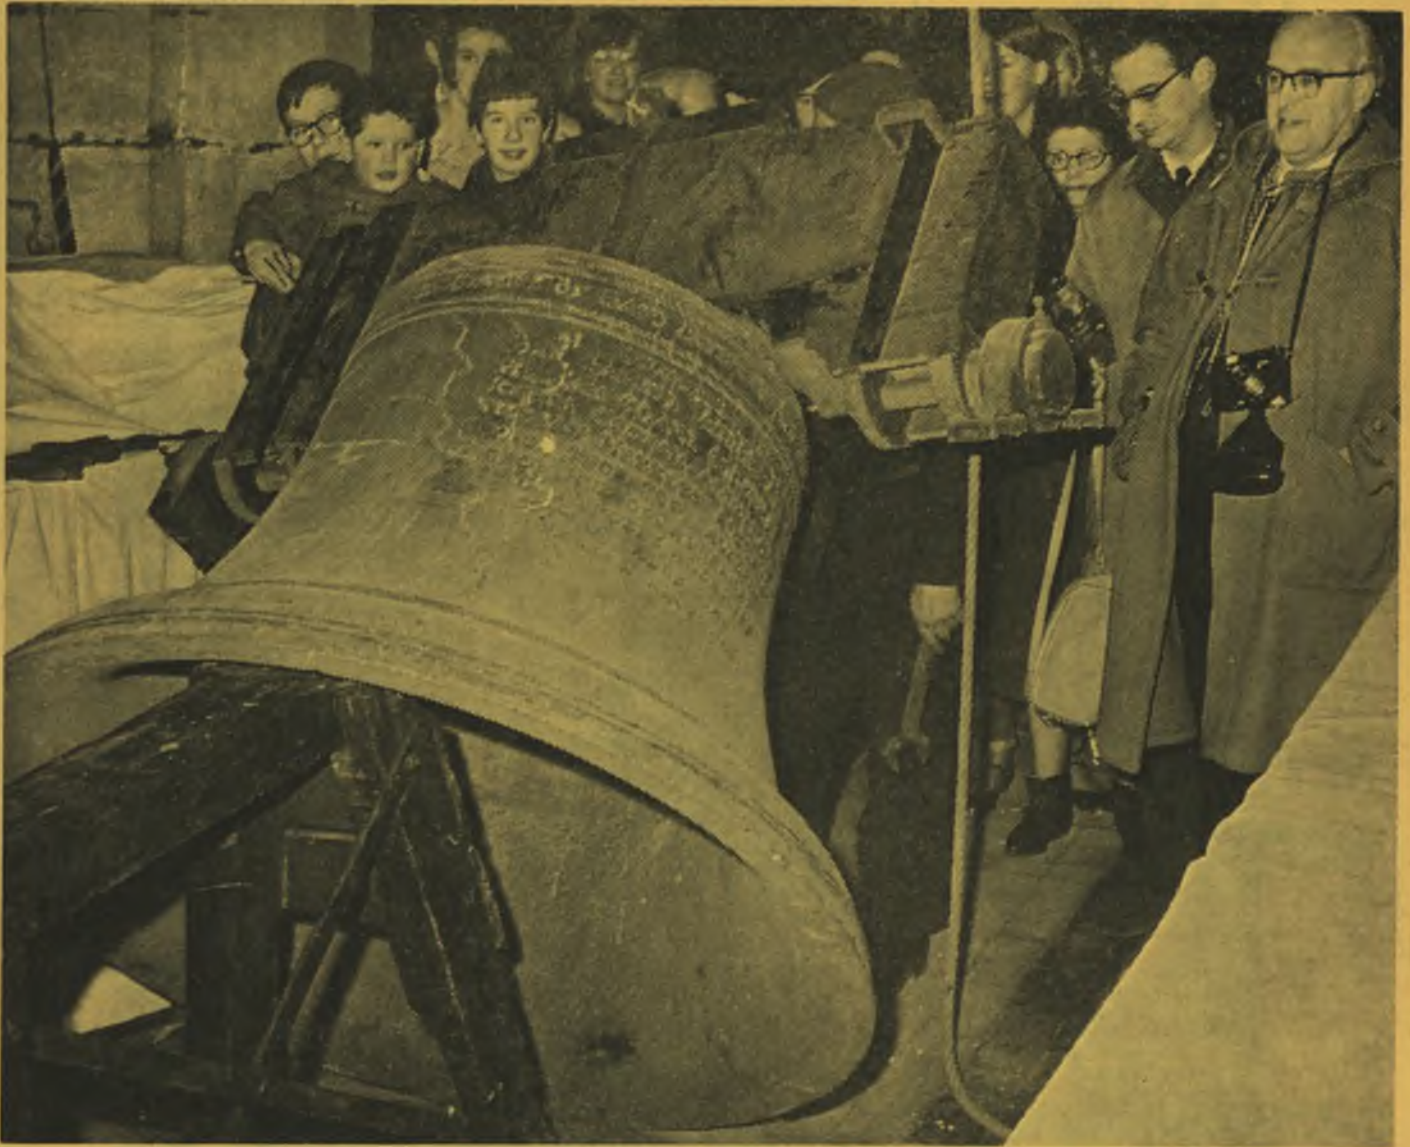

Some 35 ringers attended the quarterly meeting of the Central District at Stradbroke on January 27th. The service was taken by Canon Florance, who welcomed everyone and hoped they would enjoy the very good ten bells.

An excellent tea at the White Hart attracted 30. The meeting was presided over by the chairman, Mr. L. E. Last, while Muriel Page carried out her first duties as secretary.

The bells were kept going under the capable supervision of R. E. Lester and G. W. Pipe to rounds, Grandsire, Stedman and Cambridge Royal.

A quarter was rung at Broadhembury, Devon, on January 22nd to mark the birthday of the fifth generation to Mr. and Mrs. R. J. Stamp.

NEWARK DISTRICT SECRETARY RETIRES

Usually the District has had weather for its annual meeting but January 20th was a fair day and encouraged one or two visitors to venture to Newark to join in the ringing on the 32 cwt. ten in St. Mary Magdalene's Church.

Evensong was quite well attended and upwards of 35 people were present for the tea and business meeting. Mr. F. W. Midwinter, the District chairman, in his customary genial manner, opened the proceedings with a welcome to everyone present, including Mr. Exton, the Guild general secretary, and the visitors from Leicester.

In presenting her report for the year, the secretary said that many of the promising signs at the beginning of 1967 had not borne fruit, membership was down on 1966, and the income, too, was down—peal fees were considerably less.

Three of the retiring officers were re-elected—Mr. F. W. Midwinter as chairman, Mr. P. Wakefield Ringing Master, and Miss M. Chilton committee member. However, Mrs. B. N. Reed had given notice that she wished to

resign as hon. secretary, and Mr. Derek Tysoe, of Coddington, was elected in her place. In thanking Mrs. Reed, Mr. Midwinter said that they would not allow her to retire, only to rest and reminisce over some of the meetings they had shared during their seven years together in office, mentioning particularly one where the ringing had been done in a church on the Nottinghamshire border, and the tea and business meeting held in a field across the River Witham, in Lincolnshire. On behalf of the District, Mr. Midwinter presented a bouquet of flowers to Mrs. Reed, who, for once, was rendered speechless!

One new member was elected, Mrs. Esther Vernon, of Balderton.

Subject to permission, the following towers were selected for meetings: March 16th, North Muskham; May 18th, cup contest meeting, Barnby; July 13th, joint with Bingham District, Staunton, Orston and Sibthorpe; September 21st, North and South Collingham and South Scarle; November 16th, Sutton-on-Trent.

Under any other business, the retiring secretary reminded members that this was the 21st

The massive tenor of East Retford Parish Church is at the foot of the tower prior to removal to Loughborough for recasting. It is 51 inches in diameter and is reputed to weigh 24 cwt.

The ten bells, which have hung in the belfry since 1835, are to be recast at a cost of £3,350. This is part of a £10,000 restoration appeal, and it is gratifying to learn that the money has been raised.

According to the Vicar (the Rev. L. Shortland Ball) it is hoped to ring the new bells on Easter Day.

Our photograph appears by courtesy of "The Retford and Gainsborough Times."

annual District meeting and suggested a "coming-of-age" social to be held in the spring, with any proceeds to go to the Bell Repair Fund. April 5th was decided on, and two volunteers to help was considered a good beginning.

Ringling followed at St. Mary's, including a course of Yorkshire Major, Stedman and Grandsire Caters and Little Bob Royal.
